COLOUR CODED CLEANING SYSTEM

Make cleaning easy with Agar's colour coded cleaning system

General cleaning products are grouped into 11, colour and number coded categories according to their application.

All Purpose & Floor Cleaners

Glass & Window Cleaners

Stainless Steel Care

Spray & Wipe Cleaners

Air Fresheners

Carpet & Spot Cleaners

Disinfectant & Antibacterial Detergents

Heavy Duty Detergents

Chlorinated Cleaners & Sanitisers

Toilet & Bathroom Cleaners

Furniture Polish

What's coded?

Chemical colours

Product labels

Spray & squirt bottles

Dispensers

Wall charts

What are the benefits?

- Reduce cross contamination
- Makes compliancy easy
- Train new staff quickly
- Easy identification of products
- Wall chart summarises the system, with usage, dilution and first aid information
- Screen printed bottles provide a quick visual check that the correct chemical is in the right bottle
- Pre-labelled screen printed dispenser bottles

NEW

CONCENTRATED CLOSED LOOP SYSTEM

CleanSave

Closed Loop Chemical & Dispensing System

- Stop waste & improve safety
- Highly concentrated range
- Improve performance
- Enhance efficiency
- Control of chemical dilution
- Be more sustainable
- Small bottles, mighty action

Supplied in tamper-proof containers, the compact 2.4L bottles come fitted with special safety inserts that stop the chemical from being poured freely out of the bottle. The inserts cannot be removed and the product must be connected to a dispenser to be diluted, greatly improving the safety of staff.

← →
Safety insert +
adapter cap

Features

- Powerful cleaning action
- Safety inserts stop cleaners pouring freely from the bottle
- Dilution rates are pre-set at installation and can't be altered by cleaners — stopping 'over-dosing'
- Improve OH&S with no access to chemical concentrates
- Includes Agar's superior Colour Coded Cleaning System
- Reduced packaging equals less transport, storage requirements and related costs
- Biodegradable and environmentally preferred formulations

Range includes

- All Purpose & Floor Cleaner
- Spray & Wipe
- Disinfectant & Antibacterial Detergents
- Toilet & Bathroom Cleaners
- Glass Cleaner
- Heavy Duty Detergent

More detail of each product is located on the product pages.

ALL PURPOSE & FLOOR CLEANERS

Get beautiful, sparkling results with Agar's comprehensive range of All Purpose and Floor Cleaners. With a variety of products on offer, you can be sure you get the most effective cleaner to suit any surface, soilage or application. Each product is formulated to be safe, efficient, cost effective and of the highest quality.

Autoscrub Designed for scrubbing acrylic sealed floors and other hard surfaces. Low foaming formula makes it excellent for autoscrubbing. Enhances and extends the life of the floor sealer.

Perfume | Pine pH Level | 9.5 ± 0.5 Sizes available | 5L, 20L

CleanSave 1 A powerful, perfumed all-purpose detergent for cleaning floors and all hard washable surfaces. Cleans away daily soils from floors, walls, benches and painted surfaces. Ideal for cleaning floors sealed with Agar floor polishes. Forms part of the CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals. See page 5 for details.

Perfume | Floral pH Level | 9.0 ± 0.5 Size available | 2.4L

Eucadet Concentrated multi-purpose detergent with high foam. Rinse-free and does not leave visible films on shiny surfaces.

Perfume | Eucalyptus pH Level | 9.0 ± 0.5 Sizes available | 5L, 20L

Freshmop Designed for mopping all floors, it will not streak on glossy stone floors or polyurethane-sealed timber floors.

Perfume | Lemon pH Level | 10.5 ± 0.5 Sizes available | 5L, 20L

HC-90 Designed for hospital cleaning, it is a concentrated general purpose detergent that is odourless, solvent free and will remove all sorts of soilage from all sorts of floors, walls etc. Conforms to AS 4187.

Perfume | Odourless pH Level | 8.5 ± 0.5 Sizes available | 1L, 5L, 20L

Magic Versatile, neutral detergent for cleaning a variety of hard surfaces including floors, walls, utensils, paintwork, cars, terrazzo and more.

Perfume | Floral pH Level | 7 ± 0.5 Sizes available | 5L, 20L

Mop'N'Dry Powerful, fast drying cleaner specially formulated to be used together with microfibre mops and spray mops. It breaks down greasy and stubborn stains to boost the power of microfibre without leaving any residual films on floors, making it excellent for spot cleaning high traffic floors.

Perfume | Lemon pH Level | 9-10 Sizes available | 1L, 5L

Novadet Super detergent boosted with mild solvents. Very versatile and ideal for scrubbing all types of floors. Just might be the best all-round floor cleaner.

Perfume | Floral pH Level | 9.0 ± 0.5 Sizes available | 5L, 20L

pH-7 Environmentally preferred detergent suitable for both floors and general cleaning. Citrus based, it is suitable for marble, terrazzo and other alkali-sensitive surfaces.

Perfume | Orange Peel pH Level | 7 ± 0.5 Sizes available | 5L, 20L

Spruce Environmentally preferred multi-purpose detergent for all washable hard surfaces. Hypo-allergenic and promotes good indoor air quality. If you can only use one product for everything, this is it.

Perfume | Vanilla pH Level | 7 ± 0.5 Sizes available | 5L, 20L

Superforce Heavy duty, high-performance detergent. Most powerful in the All Purpose & Floor Cleaners range. Will remove toughest of soils including oily films, fat, carbon, smoke deposits, ink spills, bathroom build up and more. Ultimate balance between cleaning power, versatility and safety to use.

Perfume | Spicy Floral pH Level | 11 ± 0.5 Sizes available | 1L, 5L, 20L

SPRAY & WIPE CLEANERS

Dissolve dirt and grime in a flash with Agar's range of Spray and Wipe Cleaners. Tailor made to suit specific requirements and applications, each product makes cleaning hard surfaces fast and easy. Agar's Spray and Wipe Cleaners are formulated to dry to a sparkling finish and will not leave any sticky residues or streaks behind.

Citra-Mist Environmentally preferred, highly effective and fast-working spray and wipe cleaner which dissolves and removes soilage from all hard surfaces. Made using organic, renewable ingredients.

Perfume | Lemon pH Level | 10 ± 0.5 Sizes available | 1L, 5L, 20L

CleanSave 2 Powerful, grease-cutting anti-bacterial detergent, formulated for spray and wipe cleaning, that rapidly attacks and removes soilage from hard surfaces. Forms part of the CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals. See page 5 for details.

Perfume | Citrus pH Level | 12.0 – 13.0 Size available | 2.4L

Jetsol Powerful grease cutting cleaner which attacks and dissolves a wide range of soils, including ink, from washable hard surfaces. Recommended for bank counters and desks in schools and offices.

Perfume | None pH Level | 10.5 ± 0.5 Sizes available | 5L

Solspray Unique solvent detergent dissolves grime, smoke films, ink marks and routine soil from hard surfaces including doors, walls, desks, tables and carpets without leaving residues.

Perfume | None pH Level | 11.5 ± 0.5 Sizes available | 5L, 20L

Wipe-Away An economical, versatile spray and wipe cleaner with perfume that leaves surfaces smelling clean. Removes all types of daily soilage from hard surfaces, without leaving streaks. Especially good for cleaning stainless steel and Laminex®.

Perfume | Spicy pH Level | 12 ± 0.5 Sizes available | 5L, 20L

3

DISINFECTANT & ANTIBACTERIAL DETERGENTS

Destroy undesirable bacteria with confidence using Agar's range of disinfectant and antibacterial detergents. Each product is pleasantly fragranced to leave a fresh scent. Boosted by detergents, they can be used on a variety of hard surfaces to clean and disinfect.

CleanSave 3F | Fruity
CleanSave 3L | Lemon
CleanSave 3V | Vanilla

The CleanSave 3's are perfumed, commercial grade germicides with a powerful cleaning action that leave surfaces disinfected, clean and perfumed with a lingering fragrance. They are ideal for use on baths, toilets, tiled floors and fittings and form part of the CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals. See page 5 for details.

pH Level | 7.0 ± 0.5 Size available | 2.4L

Lemon Fresh citrus-scented commercial grade disinfectant and deodoriser with detergent ingredients to provide a powerful 3-way action of cleaning, removal of bacteria and odour treatment. Ideal for washrooms and all hard surfaces.

Perfume | Lemon pH Level | 7 ± 0.5 Sizes available | 1L, 5L, 20L

Kuranda Agar's first environmentally preferable and GECA certified disinfectant and antibacterial detergent, which is specially formulated to kill germs and reduce the spread of infections. Boosted with a detergent for a powerful cleaning action it leaves surfaces clean, disinfected and perfumed with a fresh floral fragrance.

Perfume | Sweet floral pH Level | 6 - 7 Sizes available | 5L, 20L

Orchids Anti-bacterial detergent with a pleasant musk perfume, kills germs and re-odourises through the whole day.

Perfume | Musk Floral pH Level | 8.5 ± 0.5 Sizes available | 5L, 20L

Tango Hospital grade disinfectant at 1:10 dilution. Kills germs and deodorises with floral-candy perfume.

Perfume | Fruity Floral pH Level | 7 ± 0.5 Sizes available | 5L, 20L

Wildflower Multi-purpose Commercial Grade disinfectant, leaves surfaces clean while it removes bacteria from floors, walls, sinks, baths, toilets, tiled areas and fittings.

Perfume | Floral pH Level | 6 ± 0.5 Sizes available | 5L, 20L

4

TOILET & BATHROOM CLEANERS

Kill germs, sanitise and shine with Agar's range of fast-acting Toilet and Bathroom Cleaners. These versatile products are highly effective on a variety of bathroom surfaces and soils, reducing the amount of cleaning supplies needed on site. Formulated to be high performance for a fast clean, the range even includes two environmentally preferred products, independently certified through GECA. See Cream/Powder Cleansers on Page 12.

All Fresh All purpose washroom cleaner concentrate for dilution via a dispenser. Forceful cleaner of toilets, urinals, showers, bathroom floors, walls, basins and fixtures. Easily dissolves rust, lime, bio-waste, urine, hard surface scale, soap and fat scum.

Perfume | Lime pH Level | 2 ± 0.5 Sizes available | 5L

Bowl Clean Powerful anti-bacterial cleaner for toilets and urinals as well as baths and showers. Bowl Clean's special acidic formula offers a multi-pronged attack. Cleans, removes rust and scale, controls germs and deodorises.

Perfume | Pot-Pourri pH Level | 2 ± 0.5 Sizes available | 5L, 20L

CleanSave 4S All-in-one shower and tile cleaner concentrate that cuts through stubborn bathroom scum on toilets, showers, floors, walls, basins and fixtures. It will deodorise and leave a fresh lime fragrance. Forms part of the CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals. See page 5 for details. Not for acid-sensitive surfaces.

Perfume | Lime pH Level | Undiluted: less than 2 Size available | 2.4L

CleanSave 4T A powerful, acidic detergent for toilets and urinals. It cleans and brightens porcelain, ceramic and stainless steel sinks, basins, urinals and toilet bowls. Forms part of the

CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals. See page 5 for details.

Perfume | Lime pH Level | Undiluted: 2.0 - 3.0 Size available | 2.4L

Fresco New generation all-purpose washroom detergent. A powerful formula based on natural plant-derived acids and surfactants that will clean toilets, showers, baths, basins, urinals, ceramic tiles and fittings. Dilutable for superior economy. No phosphates, chlorines or inorganic acid.

Perfume | Lime pH Level | 2 ± 0.5 Sizes available | 1L, 5L, 20L

Sequal Environmentally preferred cleaner for toilets, urinals, tiled floors, walls, baths, basins and shower recesses. Thick formula clings to steep surfaces to provide prolonged soil attack.

Perfume | Eucalyptus pH Level | 2.3 ± 0.5 Sizes available | 5L, 20L

Shower Star Environmentally preferred, concentrated bathroom cleaner with naturally occurring mildew and mould killers. Works without scrubbing, and rinsing is not normally required. Excellent on showers and baths and other bathroom fittings and fixtures (not marble).

Perfume | Citrus pH Level | 2.2 ± 0.5 Sizes available | 1L, 5L, 20L

5

GLASS & WINDOW CLEANERS

Bring glass, mirrors and other polished surfaces to a beautiful, streak-free finish fast with Agar's range of Glass Cleaners. Each formulation is concentrated to increase value for money while reducing packaging and transport.

Bellevue Bellevue rapidly penetrates and removes light to medium soil loads from windows and mirrors. It's a concentrate that is diluted with water on site, reducing freight of chemicals. Bellevue has been formulated to minimise any possible impact on both people and the environment.

Perfume | None pH Level | 8.5 ± 0.5 Sizes available | 5L

CleanSave 5 Fast-acting glass cleaner that rapidly penetrates and removes light to medium soil loads, leaving sparkling clean windows and mirrors. Forms part of the CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals. See page 5 for details.

Perfume | None pH Level | Undiluted: 8.5 ± 0.5 Size available | 2.4L

Fast Glass High performance wipe cleaner glass cleaner that removes grimy films and routine soilage from glass, mirrors, chrome and polished surfaces without streaking.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L, 20L

Flash-Dry Ultra-fast drying spray and wipe glass cleaner that evaporates to be fully dry within seconds. Non-streaking. Extremely versatile, ideal for restoring sparkle on glass, mirrors, table-tops, poker machines, chrome, Laminex®, Perspex® and other highly polished surfaces.

Perfume | None pH Level | 8.5 ± 0.5 Sizes available | 750ml, 5L, 20L

Venue Fast-acting cleaner concentrate for dilution via a dispenser. Cleans glass, stainless steel and chrome surfaces. Removes oil, greasy films, lipstick, finger marks and all other soilage from windows and display cabinets without streaking.

Perfume | None pH Level | 12 ± 0.5 Sizes available | 5L

Eliminate odours with a beautiful lasting fragrance using Agar's versatile range of Air Fresheners. All of Agar's Air Fresheners, except for Country Garden, contain a detergent and perfume to simultaneously clean and deodorise in one easy step. Suitable for a variety of cleaning jobs and applications these dual-action Air Fresheners help save time and money.

Country Garden Perfumed concentrate air freshener with lingering honey-suckle and rose scent. Will leave fragrance in air for days, putting an end to unpleasant odours. Ideal for washrooms and toilet blocks.

Perfume | Floral pH Level | N/A Sizes available | 1L, 5L

Freshaire Freshaire is a strong odour neutraliser as well as a detergent with anti-bacterial properties. It attacks and cleans away the odour and leaves a fresh lingering fragrance. Ideal for hospitals, nursing homes or any other facility where offensive odours need to be controlled.

Perfume | Floral pH Level | 5.5 ± 0.5 Sizes available | 5L

Strong odour-masking deodorisers all containing detergent for a powerful cleaning action that leaves surfaces clean and perfumed. Each product is ideal as an air freshener or for washing and mopping all hard surfaces.

pH Level | 6.5 ± 0.5 Sizes available | 5L, 20L (some fragrances)

GENERAL CLEANING DISPENSERS

Colour Coded Dispenser Agar can provide various types of modular dispensers designed to increase efficiency, reduce waste and cross contamination occurrences and minimise OH&S risks. The systems dilute up to six selected products with water, ensuring that the correct dilution rate is always used. The hoses fitted to the Dispensers pour directly into the Agar Dispenser Bottles or mop buckets to eliminate spillage or waste. Containers of cleaning products can be kept in locked cages to further prevent incidents.

Chemical Cage Can be used as a dispensing system through the attachment of hand pumps. The two or three product cages can also be fitted below and attached to the Colour Coded Dispensers to store cleaning products securely.

Chemi - SAFE Agar's Chemi-SAFE is a cost effective way to minimise wastage, stop spills and safely store three x 5L bottles of cleaning solution. Fitted with usage instructions for each product, the unit is designed to be used together with the Agar Colour Coded Cleaning System.

- Locks securely into place so bottles cannot be removed
- Reduces OH&S hazards
- Drip tray holds 5Ls of spills
- No water connection needed
- Easy, simple, cost efficient

HEAVY DUTY DETERGENTS

Blast away hard to remove soil in no time with Agar's range of Heavy Duty Detergents. Formulated to tackle grease, grime, oil, fat and dirt in the toughest of environments, there is a product to suit every application.

Ammodet A concentrated grease-cutting detergent boosted with ammonia. Excellent for squeegee cleaning of windows.

Perfume | None pH Level | 11.8 ± 0.5 Sizes available | 1L, 5L, 20L

CleanSave 7 Powerful, grease-cutting detergent which rapidly attacks and removes soilage from hard surfaces. Excellent degreaser/cleaner for cleaning walls, stoves, BBQ's, floors, smoke-damaged paintwork and machinery. Forms part of the CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals. See page 5 for details.

Perfume | None pH Level | Undiluted: 11.0 ± 0.5 Size available | 2.4L

Enyclean A heavy duty detergent and grease-remover with environmentally preferable ingredients. It is a fast-acting, powerful cleaner for a broad range of cleaning applications. Enyclean will remove grease, oil, greasy cooking fats and smoke films from floors, equipment, machinery and ceramic tiles.

Perfume | None pH Level | 12.8 ± 0.5 Sizes available | 5L

HF Detergent A brilliant detergent for hard-to-clean floors and walls. Great in workshops, for road dirt and wall cleaning. HF Detergent can be used to restore heavily soiled ceramic tiles, and will remove smoke stains and films from walls.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L, 20L

Low Foam HF Low-foaming and excellent for use in automatic scrubbing machines, mop buckets and steamers. Great for workshops, factories, or anywhere you find dirt, oil and grease. Also good for washing walls and other painted surfaces.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L

Presto As well as being a heavy-duty floor cleaner, Presto is excellent in food preparation areas, showers, barbecues or any other area where surfaces & fittings are soiled with organic fats, oil, grease, soap scum and so on.

Perfume | None pH Level | 13.5 ± 0.5 Sizes available | 5L, 20L

React Fast-reacting, non-caustic, powerful detergent, suitable for a diverse range of degreasing and heavy-duty cleaning tasks. It is especially effective on particulate soils like smoke and road dirt and suitable for use on all washable surfaces including aluminium.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L, 20L

Renegade High performance, versatile degreaser for removing stubborn dirt, oil, grease and soot from the most dirty of floors, equipment and machinery. Fast-reacting and powerful, Renegade rapidly loosens dirt and soot, allowing it to be washed away.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L, 20L

Shifter A powerful, alkaline cleaning agent designed specifically for daily use in autoscrubbers to systematically remove stubborn soil from troublesome ceramic tiles, quarry tiles and stone floors. A sophisticated blend of ingredients – also used for mopping.

Perfume | None pH Level | 13 ± 0.5 Sizes available | 5L, 20L

Speed Versatile solvent-based alkaline detergent that removes a broad spectrum of soilage including mineral oils, cooking oils, carbon, ink and vapour films. Useful as a light-duty sealer remover.

Perfume | None pH Level | 12.5 ± 0.5 Sizes available | 5L, 20L

Vantage Concentrated heavy-duty detergent with 3-way action, Vantage is a detergent, sanitiser and air freshener all in one product. Formulated for use in the toughest of environments, it rips through stubborn dirt, mud, oil films, grease, grime and soot to clean and sanitise the surface and leave it smelling fresh.

Perfume | Spice pH Level | 12.5 ± 0.5 Sizes available | 5L, 20L

Vigour Low-foaming kitchen detergent. Does not contain free caustic and is therefore safer to use than caustic based products. It reduces the risk of damage to aluminium or painted surfaces. Can be used as a non-caustic grill cleaner.

Perfume | None pH Level | 12 ± 0.5 Sizes available | 5L

Wheelie Bin Cleaner Concentrated heavy-duty detergent with 3-way action, Wheelie Bin Cleaner is a detergent, sanitiser and air freshener all in one product. Formulated especially for cleaning wheelie bins and garbage receptacles.

Perfume | Pine pH Level | 12.5 ± 0.5 Sizes available | 5L, 20L

8

FURNITURE POLISH

Return furniture back to a beautiful shine while cleaning with Agar's double-action Furniture Polish.

Splendour Splendour is a silicone and wax-based furniture polish that cleans, protects and polishes in one spray-wipe action. Useful for desks, chairs, tables, benches

and counters. Splendour is lightly perfumed to leave surfaces smelling clean.

Perfume | Spice pH Level | 8.5 ± 0.5 Sizes available | 1L, 5L

9

STAINLESS STEEL CARE

Get stainless steel gleaming again with Agar's range of Stainless Steel Care products. Designed to prevent finger marks, these products protect the surface and reduce cleaning time.

Stainless Steel Oil A blend of high-quality oils that will protect and enhance stainless steel panels. Applied lightly and evenly, Stainless Steel Oil prevents finger marking. Daily cleaning becomes a simple task of lightly polishing with a clean dry cloth.

Perfume | None Sizes available | 5L

Steel Shine A water-based emulsion of oils and silicone for cleaning, polishing and protecting stainless steel, aluminium, copper and bronze. Steel Shine leaves a very thin protective film which is dry, non-sticky and makes daily cleaning much quicker and easier.

Perfume | None pH Level | 6 ± 0.5 Sizes available | 1L, 5L

10

CARPET & SPOT CLEANERS

Tackle carpet spots and spills quickly with Agar's range of Carpet and Spot Cleaners. For the full range of Carpet Care products, please refer to page 18.

Carpet Shampoo A concentrated dry foam shampoo for rotary machines or spot cleaning. Hydrocarbon solvents attack soilage while very high stable foaming and soil retarding resins lift the soil out of the carpet for vacuum pick-up once dry in a very powerful cleaning action. A pleasant perfume finishes the job off nicely.

Perfume | Fruity pH Level | 8 ± 0.5 Sizes available | 5L

Citrus Extra Biodegradable, phosphate-free with natural citrus-based ingredients, Citrus Extra is a new-generation pre-spray liquid detergent for HWE carpet cleaning, in compliance with AS 3773. It is safe for general purpose use. The Citrus Extra solution is applied direct to the carpet while only water is used in the solution tank. Citrus Extra is low alkaline, low-foaming and free rinsing.

Perfume | Orange pH Level | 9.75 ± 0.5 Sizes available | 5L, 20L

ENVIRONMENTALLY
PREFERRED

Exit Exit liquid detergent is formulated for use in the tank of HWE carpet cleaning equipment. With a concentrated, fast-acting blend of surfactants and controlled pH, Exit provides safe, effective cleaning. The popular, lingering perfume leaves a great impression.

Perfume | Floral pH Level | 9.5 ± 0.5 Sizes available | 5L, 20L

Spot Wiz Versatile, effective general purpose carpet spotter with citrus-based ingredients. Pre-packed in ready to use spray packs, Spot Wiz is ideal for distribution to all cleaners for immediate use on spots and spills. Also ideal for household use.

Perfume | Orange pH Level | 9.0 ± 0.5 Sizes available | 750ml, 5L

ENVIRONMENTALLY
PREFERRED

11

CHLORINATED CLEANERS & SANITISERS

Get the best defence against bacteria with Agar's Chlorinated Cleaners and Sanitisers. Well known and trusted around Australia for their reliable performance time after time, both products double as a whitening agent. Chloradet is widely used within the healthcare industry where only the most credible disinfectants are required. See also Cream and Powder Cleaners on page 12.

Bleach A chlorine-based whitening and antibacterial agent that will control germs, mould and mildew and cut through soapy build ups. Useful for toilets, washrooms, showers and pool areas. Also good for cleaning old mops.

Perfume | None pH Level | 10.5 ± 0.5 Sizes available | 5L, 20L

Chloradet Super-active foaming cleaner which combines a caustic and bleaching action to rapidly remove all kinds of soil, fungi, mould and mildew from ceramic tiles, concrete, stainless steel, glass and porcelain. Excellent for pool surrounds, showers and kitchen floors.

Perfume | None pH Level | 12.8 ± 0.5 Sizes available | 5L, 20L

HOSPITAL
GRADE
DISINFECTANT

SPECIALTY CLEANING

Got a cleaning problem you need to solve? Agar has a comprehensive range of speciality cleaning products formulated to tackle tough surfaces and stains. Ranging from graffiti removers to furniture cleaners, Agar has a solution for all of your cleaning problems!

Biological Cleansers

Bac2Work Bac2Work harnesses the power of good bacteria to degrade organic soiling and remove the source of unpleasant bathroom odours. This solution has proven to be effective on washrooms which have long been plagued by very strong smells and residual soil other products have been unable to remove. Bac2Work is designed to be used in conjunction with BacBlocks to remove organic soil from all washroom surfaces.

Perfume | Mint pH Level | 4.5 ± 0.5 Sizes available | 1L, 5L

Drain Solution Deodorises and unblocks pipes and drains that have a history of bad odours by utilising advanced biologically-active ingredients to digest and consume the organic soilage, food scraps and fats. Keeps on digesting waste matter until the blockage is gone and positively stops foul-smelling odours.

Perfume | Fresh pH Level | 7.0 ± 0.5 Sizes available | 1L, 5L

Cream & Powder Cleansers

Cleansing Powder Cleansing Powder is a mild-abrasive, non-scratching cleaner with detergent and chlorine to remove dirt and stains from hard surfaces. It has a lemon scent to leave surfaces with a fresh lemon fragrance.

Perfume | Lemon pH Level | 7.0 ± 0.5 Sizes available | 5KG

Softie Chlorinated creme cleanser with soft polishing abrasives which boost soil removal and leave surfaces crystal clean and shiny. Softie kills germs and mould and removes water stains, soap scum and body fats from ceramics, stainless steel, porcelain & enamel surfaces in kitchens & washrooms.

Perfume | None pH Level | 11.5 ± 0.5 Sizes available | 500ml, 5L

Ritzy Ritzy is a citrus-perfumed creamy cleanser for use in cleaning and polishing porcelain, enamel and other hard surfaces. Rapidly attacks soil, is soft, mildly abrasive, does not contain chlorine and rinses free with no residue.

Perfume | Citrus pH Level | 11.5 ± 0.5 Sizes available | 750ml, 5L

Spa Cleaning

Spa Clean Cleans and sanitises spa bath pipes, removing fats, oils and debris. Spa Clean's germ killing properties protect your guests while providing a pleasant fresh scent.

Perfume | Fresh Floral pH Level | 9.5 ± 0.5 Sizes available | 1L, 5L

Furniture & Leather Upholstery Care

Leather Care Leather Care is a cleaner, conditioner and protector for fully-pigmented smooth leather surfaces, such as leather lounge suites, leather upholstery in motor cars, handbags, jackets, shoes and boots. As it dries it leaves a wax-rich film that impregnates the leather to both improve the sheen and moisturise.

Perfume | Spice pH Level | 9.0 ± 0.5 Sizes available | 1L, 5L

Splendour Splendour is a silicone and wax-based furniture polish that cleans, protects and polishes in one spray-wipe action. Useful for desks, chairs, tables, benches and counters. Splendour is lightly perfumed to leave surfaces smelling clean.

Perfume | Spice pH Level | 8.5 ± 0.5 Sizes available | 1L, 5L

Graffiti Removers

Grab Very powerful solvent-type graffiti remover. It is water-emulsifiable so it can be rinsed away effectively with water. Ideal for use on walls and brickwork and other surfaces subjected to paint and ink graffiti. Not to be used on painted surfaces or aluminium metal.

Perfume | None pH Level | 13.0 ± 0.5 Sizes available | 5L

Graffiti Remover Odour-free product that will dissolve paint, ink and other graffiti from metal, fibreglass, concrete and carpeted surfaces. Non-caustic.

Perfume | None pH Level | 11.5 ± 0.5 Sizes available | 1L, 5L

Graffiti Wipe-Off Quickly removes graffiti from painted surfaces that could be damaged by more aggressive Graffiti Removers. Dissolves felt-pen, ballpoint pen and spray paint from a variety of surfaces excluding varnished material.

Perfume | None pH Level | N/A Sizes available | 1L, 5L

Metal Products

Acid Wash A concentrated acid based heavy duty cleaner for dissolving rust, scale and lime build-ups. It also contains detergent to remove oil contamination from surfaces being treated. Excellent for removing excess grout from ceramic tile floors.

Perfume | None pH Level | 0.5 ± 0.5 Sizes available | 5L

Metal Max Rich, powerful metal polish for cleaning and shining stainless steel surfaces as well as chrome, copper, brass, enamel and ceramic cook-tops.

Perfume | Citrus pH Level | 2.5 ± 0.5 Sizes available | 500ml

SPECIALTY CLEANING

Vehicle Cleaning

Dirt-Off Excellent heavy-duty detergent for instantly removing all kinds of industrial dirt. Amazingly versatile, Dirt-Off is a pleasantly-perfumed degreaser for use with mops, autoscrubbers, steam cleaners and pressure washers. Ideal for cleaning floors, pavements, equipment, paintwork, machinery, kitchens and the exterior of train carriages.

pH Level | 13.0 ± 0.5 Sizes available | 5L, 20L

Nu-Glo A water-based, odourless and non-flammable polish and protectant. It possesses a wide array of uses including rubber, vinyl, plastic and finished leather surfaces. As oxidation and the effects of ultraviolet light can damage such surfaces, Nu-Glo leaves a rich coating of silicone oils on the surface which repels these harmful external agents.

Perfume | Lavendar pH Level | 10.0 ± 0.5 Sizes available | 500ml, 5L

Portacare Sanitiser designed as the waste tank additive for portable toilets, sewage holding tanks and sanitary pan systems. Contains an effective germ-killing agent to control bacteria, together with a deodoriser and a perfume. Portacare is a strong blue colour so the waste tank contents are masked by a blue colouration.

Perfume | Citrus pH Level | 11.5 ± 0.5 Sizes available | 5L, 20L

React React is a fast-reacting, powerful detergent suitable for a diverse range of degreasing and heavy-duty cleaning tasks. It is especially effective on particulate soils like smoke and road dirt.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L, 20L

Truckwash Powerful cleaner for removing road dirt, oil and carbon from trucks, cars and buses. Also great for removing grime from exterior building walls. Free rinsing, biodegradable and non-rusting.

Perfume | None pH Level | 10.0 ± 0.5 Sizes available | 5L, 20L, 200L

Turbo Gleam A powerful wash-and-wax car and truck cleaner that protects paintwork from the elements and gives it a sparkling shine. Turbo Gleam will remove road dirt, oil and carbon from truck, car and bus paintwork, rubber, chrome and glass. Makes vehicle cleaning easier with repeated use.

Perfume | None pH Level | 11.5 ± 0.5 Sizes available | 5L, 20L, 200L

Tyre Shine Tyre Shine is a rubber protector that seals, shines and protects black tyres and rubber surfaces from oxidation and weathering. Provides a long-lasting, durable shine that will not wash off in the rain.

Perfume | None pH Level | N/A Sizes available | 20L

Hardware

Agar provides a full range of hardware and sundry items to support all cleaning needs. Products are carefully selected for durability and quality, ensuring that they withstand the toughest of cleaning environments. Included in the range are Agar's reusable, screen printed dispenser bottles. Made to suit specific products with colour coding, dilution rates, first aid advice and cleaning application diagrams, they reduce waste and make cleaning simple.

SPECIALTY CLEANING

Concrete Removal

CM-X Concrete Remover CM-X removes concrete, cement and grout as well as lime, scale and rust from brick walls and acid resistant hard surfaces. Ideal for builder's cleans, it is low-odour and works like strong acid but is less corrosive and much safer to handle. Based on an organic-salt complex it contains corrosion inhibitors and is non-fuming.

Perfume | None pH Level | 1.0 ± 0.5 Sizes available | 5L, 20L

Concrete Remover CR-60 Concrete Remover CR-60 is a fast-acting, low-odour, non-corrosive concrete remover for dissolving lime, concrete and mortar residues from concrete mixers, trucks and trowels used in laying and transporting concrete as well as from surfaces that have been splashed with concrete. It can be used on plastics and paintwork that is in reasonable condition and it will have little effect on steel, stainless steel and iron. Contains corrosion inhibitors.

Perfume | None pH Level | 1.5 ± 0.5 Sizes available | 5L, 20L, 200L

NO
ODOUR OR
FUMES

Chemical Specialties

Antifoam A super concentrated silicone defoaming agent. Add a few drops to your recovery tank to prevent foam from reducing valuable capacity.

Perfume | None pH Level | 7.0 ± 0.5 Sizes available | 1L, 5L

Distilled Water Pure distilled water for use in washing windows with reduced residue and for topping up wet batteries.

Perfume | None pH Level | 5-7.0 Sizes available | 5L, 20L

Methylated Spirit Methylated Spirit is a fast-drying solvent for removing soilage and stains caused by adhesive tape marks, cosmetics, hand prints, fats and some types of ink. It is also a powerful germicide. It can be used on hard surfaces and glass. Also works as a sanitiser and glass cleaner.

Perfume | None pH Level | N/A Sizes available | 5L, 20L

Isopropyl Alcohol Isopropyl Alcohol is 100% isopropyl alcohol (also known as rubbing alcohol and Isopropanol) and is used as a solvent, sanitiser and window cleaner. It quickly removes "sticky tape" residues, cosmetic stains, fingerprints and smears and some ink from hard surfaces.

Perfume | None pH Level | N/A Sizes available | 5L

Degreasers & Oil Removers

DLX Citrus Degreaser A citrus-based degreaser for removing tar, oil, wax and stains from a variety of surfaces. It can be used in busy retail areas for the removal of chewing gum residue and stains where other stronger smelling solvents are unable to be used.

Perfume | Orange pH Level | N/A Sizes available | 1L, 5L

Drive Away Drive Away is an extremely powerful and simple-to-use oil and grease remover for concrete and stone pavement. It literally drives the stain right out of the surface to be cleaned with no scrubbing required. Perfect for oil stains left by leaking motor vehicles.

Perfume | None pH Level | N/A Sizes available | 5L

Oil Removal Paste Oil Removal Paste is a white, absorbent paste containing hydrocarbons. It works using the "poultice method" for drawing out stubborn oil stains that have soaked into porous concrete and stone floors and wall tiles. Can be used on concrete, bluestone, granite, ceramic tiles, terracotta, marble, limestone and terrazzo.

Perfume | None pH Level | N/A Sizes available | 1L, 10KG

Special Purpose Heavy Duty Detergents

Dirt-Off Excellent heavy-duty detergent for instantly removing all kinds of industrial dirt. Amazingly versatile, Dirt-Off is a pleasantly-perfumed degreaser for use with mops, autoscrubbers, steam cleaners and pressure washers. Ideal for cleaning floors, pavements, equipment, paintwork, machinery, kitchens and the exterior of train carriages.

pH Level | 13.0 ± 0.5 Sizes available | 5L, 20L

Escalator Cleaner Fast-acting detergent for cleaning and degreasing escalator steps and travelators. Leaves metal surfaces bright and clean, doesn't tarnish or corrode aluminium and is low-foaming. Escalator Cleaner can be used in escalator cleaning machines, fixed brush devices and manually.

Perfume | None pH Level | 12.5 ± 0.5 Sizes available | 5L

Once Off Very concentrated, highly-alkaline hard surface cleaner/detergent. It is specially made for cleaning ceramic, porcelain and quarry tiles that are difficult to clean. Use only periodically for restorational cleaning.

Perfume | None pH Level | 13.5 ± 0.5 Sizes available | 5L

SD-37 Fast-reacting, powerful detergent suitable for a diverse range of degreasing and heavy-duty cleaning tasks. It is a lemon-scented cleaner. Attacks oil, fat and dirt and easily washes it away.

Perfume | Lemon pH Level | 12.5 ± 0.5 Sizes available | 5L

PERFUMED

PERSONAL CARE

Choose from a selection of luxurious and quality hand and body washes with Agar's range of Personal Care products. Each product is formulated to be soft and gentle on the skin with nourishing ingredients used across the range including aloe vera, wheatgerm oil, vitamins and glycerine.

Liquid Soaps

Cool Tide A 500ml instant hand sanitiser that can be used without water. Cool Tide provides long lasting moisturisation for soft and smooth feeling hands, whilst killing 99.9% of germs. The formula is rinse-free and non-sticky, ideal for workplaces where quick and easy hand sanitisation is needed.

Perfume | None pH Level | 5.5 ± 0.5 Sizes available | 500ml, 5L

Garland A premium quality hand cleanser for use where regular hand washing is required. A rich lather floats soil from the hands leaving skin feeling clean, soft and supple. Added vitamins in Garland enrich and care for the skin so it can be used throughout the day.

Perfume | Floral pH Level | 6 ± 0.5 Sizes available | 750ml, 5L, 20L

Microsan Anti-bacterial thick lotion hand cleanser that produces a rich lather and kills germs on the skin. It contains aloe vera, wheatgerm oil and glycerine to enrich and care for the skin. It is pH-balanced to match the pH of the skin. It is low in perfume and suitable for use by food handlers.

Perfume | Floral pH Level | 6 ± 0.5 Sizes available | 5L

Royal Wave Royal Wave is a thick liquid hand soap that provides a rich lather, floating away dirt and grime to leave the skin soft and supple. Formulated without colour, it is a great option for organisations that prefer colour-free hand soap.

Perfume | Floral pH Level | 6 ± 0.5 Sizes available | 5L

Silvan Premium-quality liquid hand cleanser. It is perfume-free and ideal for use in food preparation areas. Contains provitamin B5 and glycerine to enrich and care for the skin.

Perfume | None pH Level | 6.5 ± 0.5 Sizes available | 5L

Foaming Hand Soap

Double Bubble A non-thickened liquid hand soap that provides a rich foam lather and reduces packaging waste. It is designed to be dispensed from special foaming hand soap dispensers that deliver the soap in the form of a foam rather than a liquid or lotion. Very economical to use.

Perfume | Floral pH Level | 7 ± 0.5 Sizes available | 5L, 20L

Industrial Hand Wash

Hand Scrub Hand Scrub is a professional workshop hand cleaner for removing all types of tough, industrial soils such as oil, grease, tar, sealants, soot, dirt and paint. It works hard to remove the toughest grease while the skin softeners and emollients in Hand Scrub leave the hands feeling soft and refreshed.

Perfume | Citrus pH Level | 7.0 ± 0.5 Sizes available | 5L, 15L

Mechanix A liquid hand cleanser prepared using an advanced formula that contains porcelain microspheres which make it robust enough to cut through the toughest industrial soil, yet gentle enough to look after the skin. After using Mechanix, you will find your skin is left feeling soft, clean and moisturised. Contains no poly beads.

Perfume | Citrus pH Level | 6.2 ± 0.5 Sizes available | 5L

Body Wash

Ambergold A premium quality body wash and conditioning shampoo with an excellent skin cleansing action that lifts soils whilst remaining mild and gentle to the skin. The luxurious foam rinses easily leaving skin feeling soft and enriched and the hair silky, conditioned and manageable.

Perfume | Floral pH Level | 5.5 ± 0.5 Sizes available | 5L

FLOOR CARE

Get a beautiful lasting finish with Agar's Floor Sealing Systems. Formulated to minimise the need to strip and seal floors, the range improves productivity and reduces associated costs. Agar Cleaning Systems has been specialising in Floor Care Systems for over 50 years, consistently producing formulations that provide excellent results. The diverse range includes products to suit different degrees of resilience, hardness and porosity to ensure there is a solution to suit every floor.

Sealers Finishes

2020 Gloss 2020 Gloss allows vinyl tiles and timber floors to be buffed to a crystal clear, dazzling gloss that continues to sparkle throughout the day. Versatile and ideal for a wide variety of floor types, it provides a fast cure rate and high level of abrasion resistance.

pH Level | 8.5 ± 0.5 Sizes available | 5L, 20L

3D-Gloss Super-glossy sealer finish with premium ingredients for vinyl tiles and other hard floors. It buffs up easily under UHS buffing machines to create a crystal-clear dazzling gloss. Tough and hard-wearing, non-slip, colourless and scuff-resistant. Excellent top-coat for terrazzo.

pH Level | 8.2 ± 0.5 Sizes available | 5L, 20L

Duro A versatile premium grade all-in-one sealer and finish suitable for all types of floors. Gives excellent gloss, wear and resists scuffing and scratching. Ideal for flexible sheet vinyl and rubber, timber and vinyl tiles.

pH Level | 9 ± 0.5 Sizes available | 5L, 20L

Super Nova A super-glossy, rock-hard sealer that holds its shine even without buffing. Its glossy appearance lasts exceptionally well because it repels scuffs, scratches and traffic marks, making it ideal for use on floors that are not buffed.

pH Level | 9 ± 0.5 Sizes available | 5L, 20L

Tuff-Gloss Agar's latest sealer uses advanced polymer technology to create a dual action sealer-finish that is both ultra-durable and beautifully glossy. Its high scratch resistance and easy scratch repair means that it maintains its shine, extending the time between strip and seals. Straight off-the-mop it provides a stunning 'wet look' that buffs up quickly. With extra-high solids, Tuff-Gloss requires fewer coats and is fast and easy to lay. Ideal for use on terrazzo, vinyl, marble, wood and polished concrete.

pH Level | 8.7 ± 0.5 Sizes Available | 5L, 20L

Base Sealers

First Base Versatile chemical-resistant base coat sealer ideal for concrete, wood and especially porous terrazzo.

The sealed surface becomes resistant to spills and protects against traffic wear. It is a water-based and semi-permanent sealer, suitable for outside use and can be top-coated with other Agar sealers.

pH Level | 8 ± 0.5 Sizes available | 5L, 20L

Granoseal Granoseal is a glossy mark resistant sealer for all types of stone floors including marble. Water-based, it offers great adhesion to provide a strong, clear plastic film.

pH Level | 8.5 ± 0.5 Sizes available | 5L, 20L

Masterpiece Long-lasting acrylic floor sealer with excellent wear resistance and durability. Extremely durable base-coat for vinyl. Use 3D-Gloss as the top-coat.

pH Level | 9 ± 0.5 Sizes available | 5L, 20L

Cutting Back

Florprep A break-through detergent designed specifically for scrubbing back floor polish. Ideal for removing polish topcoats and dirt from floors prior to re-coating. It leaves a smooth, clean base for new coats to go over.

pH Level | 12.5 ± 0.5 Sizes available | 5L, 20L

Specialised Sealers

Matt Finish Sealer Matt Finish Sealer is a tough, hard-wearing, water-based floor sealer that dries to a low-sheen finish. It will protect floors and cut down on sun-glare, and is fully strippable. It requires minimal stirring and is easy to lay.

pH Level | 9.0 ± 0.5 Sizes available | 5L, 20L

Satin Finish Acrylic, low-gloss, non-reflective transparent floor sealer, with maximum toughness and mark resistance. Satin Finish will minimise reflections and glare.

pH Level | 8.8 ± 0.5 Sizes available | 10L

Stone Block A penetrating sealer that applies an invisible and breathable barrier within the micro-porous surface of all uncoated, natural stones, pavers and tiles in order to maintain their original appearance. The invisible barrier helps to block dirt, stains and spills from penetrating the surface so that they can be easily washed away.

pH Level | 5.5 ± 0.5 Sizes available | 5L

Timbertech Water-based polyurethane raw timber sealer for all types of indoor wood and cork floors. It gives a glossy, tough, resilient hard-wearing finish, ideal for gymnasium floors and also for high traffic multi-purpose halls.

pH Level | 8 ± 0.5 Sizes available | 5L

Spray Buff

Spraybuff C A non-residual cleaner and sealer repairer. Using Spraybuff C while buffing allows a sealer to re-level, and repairs damage from daily wear, marking and scuffing. Spraybuff C facilitates soil removal without residues.

Perfume | Fruity pH Level | 6 ± 0.5 Sizes available | 5L

Neutralizer

Neutralizer Neutralizer is a powerful solution for neutralizing alkaline residues on hard floors to return the pH level to an acceptable, neutral value.

Perfume | None pH Level | 2.0 ± 0.5 Sizes available | 5L

FLOOR CARE

Sealer Removers

Demolish Demolish is a new-generation, super-concentrated floor stripper that has been specially formulated to rip through the toughest, oldest, and most stubborn of floor polishes. It is easy to work with, low odour, water soluble and safe for use on sealed terrazzo, marble, granite, polished concrete and vinyl sealed floors. Use at a higher concentration for a super powered stripper or dilute down for an economical formula.

pH Level | 12 ± 0.5 Sizes available | 5L, 20L

STR-36 Concentrated stripper for ripping through old films and build-ups of hardened floor sealer. Ideal for stripping semi-permanent sealer base-coats which are resistant to normal strippers.

pH Level | 11.5 ± 0.5 Sizes available | 5L, 20L

Take Off A low-foaming alkaline stripper that has a powerful formula for ripping through old, hardened sealer. Ideal for semi-permanent base-coats and thick coatings of sealer finishes which are resistant to normal strippers.

pH Level | 13 ± 0.5 Sizes available | 5L, 20L

Ultrastrip Odourless, non-dangerous and highly effective, Ultrastrip will cut through old built-up sealer and is particularly good for stripping floor edges. Ideal for general stripping needs.

pH Level | 11 ± 0.5 Sizes available | 5L, 20L

Daily Cleaning Detergents

Autoscrub Designed for scrubbing highly polished floors and other hard surfaces. Recommended for cleaning Agar sealed floors. Enhances and extends the life of the floor sealer

Perfume | Pine pH Level | 9.5 ± 0.5 Sizes available | 5L, 20L

pH7 Environmentally preferred detergent suitable for both floors and general cleaning. Citrus based, it is suitable for marble and terrazzo and other alkali-sensitive surfaces.

Perfume | Orange pH Level | 7 ± 0.5 Sizes available | 5L, 20L

Floor Maintainers

Autobrite Autobrite is a cleaner and sealer in one. Ideal for unsealed floors, Autobrite leaves a micro-film of high-quality buffable sealer on vinyl, marble, terrazzo and timber floors. Its detergents will remove all types of routine soil, leaving floors clean and shiny. Only for low-speed buffing. Use Scrub'N'Shine or Sympol for sealed floors.

Perfume | None pH Level | 10.6 ± 0.5 Sizes available | 5L, 20L

Mop Oil Mop Oil is a versatile penetrating oil which can be used as a wooden floor treatment and as a dust mop treatment to assist in attracting and holding dust. Note: Mop Oil is not suitable for use with surface finishes.

Perfume | None pH Level | N/A Sizes available | 5L

Scrub 'n' Shine A powerful detergent for polished floors that has a useful 2 in 1 action: it both cleans the floor and replenishes the surface with hard-wearing polish. Regular use will prolong the life of the film of polish on the floor and maintain a beautiful glossy surface. For UHS buffing.

Perfume | None pH Level | 9.5 ± 0.5 Sizes available | 5L, 20L

Shinywash A pine-scented floor cleaner which simultaneously cleans and shines the floor's surface. It removes all types of routine floor soilage from vinyl, timber, linoleum and stone floors. Designed for damp-mopping and autoscrubbing and will leave the floor clean and ready for buffing to a very high finish.

Perfume | Pine pH Level | 9.7 ± 0.5 Sizes available | 5L

Sympol A unique system utilising the daily autoscrubbing process for washing and maintaining the sealer film on the floor in one step. The floor is then buffed which quickly yields a super-glossy shine. Sympol offers large potential savings by eliminating strips and seals.

Perfume | None pH Level | 9.5 ± 0.5 Sizes available | 5L, 20L

Floor Care Selection Chart

CARPET CLEANING

Rely on Agar's range of specialised carpet cleaning products to produce a brilliant clean every time. Built on superior formulations, these concentrated cleaners offer dependable performance and great value. The range includes stain removers, pre-sprays, Hot Water Extraction (HWE) formulations, treatments and upholstery care products to provide a solution for every task. Revitalise the oldest and dirtiest of carpets with Agar's professional cleaning products.

Pre-Spraying & Hot Water Extraction Formulations

Amazon G4 New superior formulation, Amazon G4 cleans carpets faster and achieves better results than ever before. The carpet powder detergent, designed for use with hot water extraction machines, has more alkaline reserves to attack really dirty carpets such as in restaurants and pubs. Now a yellow powder with a floral perfume, Amazon G4 has new low-foaming ingredients which minimise foam in the recovery tank and improve productivity.

POWDER
DETERGENT

Perfume | Floral pH Level | 11 ± 0.5 (1% Solution) Sizes available | 1KG, 10KG

Citrus Extra Biodegradable, phosphate-free with natural citrus-based ingredients, Citrus Extra is a new-generation pre-spray liquid detergent for HWE carpet cleaning, in compliance with AS 3773. It is safe for general purpose use. The Citrus Extra solution is applied direct to the carpet while only water is used in the solution tank. Citrus Extra is low alkaline, low-foaming and free rinsing.

Perfume | Orange pH Level | 9.75 ± 0.5 Sizes available | 5L, 20L

Exit Exit liquid detergent is formulated for use in the tank of HWE carpet cleaning equipment. With a concentrated, fast-acting blend of surfactants and controlled pH, Exit provides safe, effective cleaning. The popular, lingering perfume leaves a great impression.

Perfume | Floral pH Level | 9.5 ± 0.5 Sizes available | 5L, 20L

Solspray A versatile liquid cleaner which can be used on carpet. It's moderate pH is ideal for pre-spotting, pre-spraying and in-tank HWE applications. Concentrated solvents and surfactants make Solspray ideal for greasy or oily soilage. Excellent for troublesome nylon carpet.

Perfume | None pH Level | 11.0 ± 0.5 Sizes available | 5L, 20L

Restoration

Bionil Highly concentrated quat-based disinfectant that combines a strong germ-killing action with excellent heavy duty cleaning properties. For use in tackling extreme bacterial contamination such as after flooding, sewerage leaks, mould build ups and rotting organic matter. Bionil cleans and sanitises in one step. It provides a powerful killing action on bacteria, mould and fungi and heavy duty cleaning performance.

Perfume | None pH Level | 12 ± 0.5 Sizes | 5L

Super Deo After fire or flood damage, an excellent odour control agent is required. Super Deo has a strong floral/pot pourri perfume at a high concentration so it is very effective at masking and reodourising bad odours. Designed for use after Bionil has killed bacteria, Super Deo both cleans any final residues of soilage and deodorises the carpet.

Perfume | Floral pH Level | 6.5 ± 0.5 Sizes | 5L

Other Cleaning Methods

Antifoam A super concentrated silicone defoaming agent. Add a few drops to your recovery tank to prevent foam from reducing valuable capacity.

Perfume | None pH Level | 7.0 ± 0.5 Sizes available | 1L, 5L

Bonnet Cleaner A premium liquid detergent for cleaning all types of carpet by the rotary bonnet method. Fast-reacting and quick drying, it offers exceptional value for money. Ideal interim cleaning method between full extraction cleans.

Perfume | Spice pH Level | 8.5 ± 0.5 Sizes available | 5L

Cap-It-Off An encapsulation cleaner that can be used on all types of carpet and fabric upholstery. The latest technology has gone into making Cap-It-Off; this product dissolves and encapsulates soil so that it never re-deposits on the carpet fibres. The used solution dries to a crystalline residue which is easily removed from the fibres when vacuuming. It is fast reacting and ideal for use on busy commercial carpeted floors where the time and labour available for cleaning is limited.

Perfume | Floral pH Level | 8 ± 0.5 Sizes available | 5L

Carpet Shampoo A concentrated dry foam shampoo for rotary machines or spot cleaning. Hydrocarbon solvents attack soilage while very high stable foaming and soil retarding resins lift the soil out of the carpet for vacuum pick-up once dry in a very powerful cleaning action. A pleasant perfume finishes the job off nicely.

Perfume | Fruity pH Level | 8 ± 0.5 Sizes available | 5L

CARPET CLEANING

Spotters & Stain Removers

Amsolve A super effective stain remover for hard to shift spots and spills caused by orange juice, soft drinks, wine, blood and protein-based foodstuffs such as milk, egg, ice-cream and chocolate. Amsolve is also excellent for cleaning and restoring rundown, traffic soiled synthetic fibre carpets.

Perfume | None pH Level | 11.9 ± 0.5 Sizes available | 1L, 5L

Carpet Spotter B Carpet-stain-removal solvent. Suitable for removing adhesive tape marks, cosmetics, Lysol, oil stains and some types of ink stains from carpet and hard surfaces.

Perfume | Fruity pH Level | N/A Sizes available | 5L

Citrus Spotter Biodegradable, all natural and phosphate-free spotter with a citrus fragrance. Citrus Spotter will remove grease and oil, oily stains, tar, adhesive, rubber, etc., and is a fast acting spotter which evaporates completely leaving no residue.

Perfume | Citrus pH Level | N/A Sizes available | 5L

Coffee Stain Remover Super-powerful 2-part peroxide based product for attacking stubborn coffee and red wine stains.

Perfume | None pH Level | 9.5 ± 0.5 Sizes | Part A 1L, Part B 500ml

Cosmex Suitable for removing adhesive tape marks, cosmetics, lipstick, mascara, nail polish and some types of ink stains from carpet, fabrics and hard surfaces.

Perfume | Fruity pH Level | N/A Sizes available | 5L

Cure A highly effective stain remover for those stubborn cordial, fruit juice, pet and urine stains.

Perfume | None pH Level | 11.9 ± 0.5 Sizes available | 1L

Freezing Spray Used to solidify chewing gum, so it can be broken up and removed.

Perfume | None pH Level | N/A Sizes available | 200gm

G-Solve G-Solve's breakthrough formula provides an excellent general cleaning solvent and carpet spotter that has the power to dissolve adhesives, grease and some kinds of ink while remaining non-flammable.

Perfume | Pine / Citrus pH Level | N/A Sizes available | 1L, 5L

Rustex A fast-acting treatment for removing rust stains from carpets. Rustex dissolves the iron hydroxide salts that are present in rust and enables the stain to be rinsed free from the carpet fibres. HF acid formula. Exercise extreme caution, handle with care.

Perfume | None pH Level | 1 ± 0.5 Sizes available | 500ml

Spot Wiz Versatile, effective general purpose carpet spotter with citrus-based ingredients. Pre-packed in ready to use spray packs. Spot Wiz is ideal for distribution to all cleaners for immediate use on spots and spills. Also ideal for household use.

Perfume | Orange pH Level | 9.0 ± 0.5 Sizes available | 750ml, 5L

Tannex An effective mild-acid carpet spotter for removing stains caused by tea, coffee, beer, urine, berry and red wine spillages. Ideal for treating water stains and jute stain browning. The mild acidity of Tannex is useful for neutralising alkaline treatments like Amsolve and Exit.

Perfume | None pH Level | 1.5 ± 0.5 Sizes available | 500ml, 5L

Treatments

Anti-Static Carpet Spray Easy-to-apply carpet treatment that prevents static electricity from building up in carpet fibres.

Perfume | Floral pH Level | 4.0 ± 0.5 Sizes | 5L

Browning Treatment A powerful solution for removing cellulosic browning stains and watermarks from all types of carpet and upholstery. Browning Treatment is a mild acid which leaves no residues. Its mild acidity neutralises residues from alkaline detergents.

Perfume | None pH Level | 4 ± 0.5 Sizes available | 5L

Everfresh Concentrated liquid formulated for neutralising and removing bad odours from carpets. Ideal for use on stain-resistant carpets where ordinary deodorisers cannot be used. Leaves a lingering spice fragrance.

Perfume | Spice pH Level | 5.0 ± 0.5 Sizes | 5L

Neutralizer Neutralizer is a powerful solution for neutralizing alkaline residues in carpets and hard floors to return the pH level to an acceptable, neutral value. It is also a great browning treatment for removing cellulosic browning stains caused by overwetting, flooding or alkaline reactions in carpets or upholstery.

Perfume | None pH Level | 2.0 ± 0.5 Sizes available | 5L

Protector A high-quality water-based fabric protector, based on fluoro-polymer technology. Suitable for fabric upholstery, drapes, rugs and carpet. Protector forms an invisible barrier to soil and stain penetration around the fibres. Spillages clean up easily and the fabric stays cleaner and brighter for longer.

Perfume | Floral pH Level | 5.5 ± 0.5 Sizes available | 5L

FOOD SERVICE

Trust your kitchen is hygienically clean with Agar's range of high performance, value for money Food Service products. Each product is formulated to act quickly and effectively to reduce cleaning time and improve productivity. Backed by consistent and responsive technical support, you can be sure to get excellent service and advice when you need it. Make your tableware sparkle, cut through fat, remove oil and baked on residues and blast away germs with Agar's Kitchen Care range.

Ware Washing

Acid Wash A powerful acid based cleaner for removing hard water scale and insoluble salt build ups from dishwashing machine tanks and interior surfaces. Acid Wash is non-corrosive to stainless steel. Prevents scale build-up.

Perfume | None pH Level | 0.5 ± 0.5 Sizes available | 5L

Autodish Chlorinated high-performance liquid detergent for machine washing of all tableware. Excellent free-rinsing properties. Low foaming and non-toxic. Prevents scale build up.

Perfume | None pH Level | 13 ± 0.5 Sizes available | 5L, 10L, 20L

Autodish SP With the same high performance and free rinsing properties as Autodish, SP has been designed specially for hard water areas containing a special blend of water softeners to prevent scale build-up.

Perfume | None pH Level | 13 ± 0.5 Sizes available | 10L, 20L

Dish-Power Dish-Power is a high performance detergent for commercial dishwashing machines. In concentrated solid form it provides a safer, more compact alternative to machine dishwashing liquid detergents.

Perfume | None pH Level | 13 ± 0.5 (1% Solution) Sizes available | 4KG

Galley 2 Commercial strength dishwashing powder for automatic warewash machines. Chlorinated and boosted with powerful cleaning agents. Galley 2 will remove all food residues without harming surfaces.

Perfume | None pH Level | 12.5 ± 0.5 Sizes available | 1KG, 5KG, 10KG

Glass Wash Machine glass washing detergent. Easily removes smears and film. Glasses sparkle, free of spotting even without additional rinse aid.

Perfume | None pH Level | 10.6 ± 0.5 Sizes available | 5L

Lift Designed for dish and pot washing in the sink, this is a very versatile neutral detergent. Lift is a concentrated emulsifier with good foam height. Excellent for removing large quantities of greasy, fatty soil from even the most sensitive of surfaces. It will also clean floors, walls, utensils, paintwork, etc.

Perfume | Lemon pH Level | $8-9 \pm 0.5$ Sizes available | 1L, 5L, 15L, 20L

Pot Wash A high performance detergent that provides excellent cleaning power whilst controlling staining. It leaves pots and pans sparkling clean. Safe on aluminium.

Perfume | None pH Level | 13 ± 0.5 Sizes available | 5L, 20L

Presoak Powder A chlorinated alkaline powder, free flowing and non-toxic. Dissolves food residues and teacup stains.

Perfume | None pH Level | 11.5 ± 0.5 Sizes available | 10KG

Rinse Aid A concentrated rinsing agent to eliminate streaking and spotting. Used in the final rinse spray in dishwashing machines, it also speeds up drying.

Perfume | None pH Level | 5 ± 0.5 Sizes available | 5L, 15L, 20L

Kitchen Cleaning & Sanitising

Beer Line Cleaner Two part liquid detergent with alkaline action for cleaning beer lines. Eliminates yeast build-ups, beer stone and scale deposit from beer lines and drawing equipment. Brewery approved.

Perfume | None Sizes available | Each part x 5L

Citrastar Citrastar is a naturally derived sanitiser that is made from natural citrus fruit. It may be used as a sanitiser to destroy bacteria on all hard surfaces in kitchens and food-preparation areas.

Perfume | Citrus pH Level | 3.0 ± 0.5 Sizes available | 5L

Foam Up Powerful, high foaming detergent and germkiller for use in food-processing areas. Foam Up attacks fats, proteins and oils on utensils, walls, floors and machines. Easily applied by foam-gun and generates a rich, stable lather that removes food residues and kills germs. Rinse off after 8 minutes contact time.

Perfume | None pH Level | 10 ± 0.5 Sizes available | 5L

HygeniCLEAN Water-based sanitising and cleaning agent that kills germs and leaves food preparation surfaces hygienically clean. Versatile general purpose product – for use on tables as well.

Perfume | None pH Level | 11.2 ± 0.5 Sizes available | 5L, 20L

RF-12 No rinse, food-grade sanitiser, for use in kitchens and food processing areas. Excellent for general surfaces, pots and pans, floors and equipment. When cleaned then treated with RF-12 items are rendered safe and free from bacteria.

Perfume | None pH Level | 7.3 ± 0.5 Sizes available | 5L, 20L

Vigour Low-foaming kitchen detergent. Does not contain free caustic and is therefore safer to use than caustic based products. It reduces the risk of damage to aluminium or painted surfaces. Can be used as a non-caustic grill cleaner.

Perfume | None pH Level | 12 ± 0.5 Sizes available | 5L

Dish-Power New generation

New generation dishwashing detergent supplied as a solid powder in a tub which fits onto a dispenser. The system is great for kitchens which don't have much room as it is very compact. Solid form also minimises the risk of staff coming into contact with solution.

FOOD SERVICE

Oven & Grill Cleaners

Combi-Oven Cleaner A fast-acting detergent for removing fat, grease, carbon and food residues from combination steamer ovens. Do not apply to aluminium or painted surfaces.

Perfume | None pH Level | 13 ± 0.5 Sizes available | 5L

Grill Clean Powerful fast-acting alkaline liquid for dissolving fat, carbon and baked-on food residues. This will keep ovens, ranges, grills and hotplates in commercial kitchens hygienically clean.

Perfume | None pH Level | 13.5 ± 0.5 Sizes available | 5L, 20L

Kooka-Kleena Designed for removing fat, grease, carbon and burnt on food residues from ovens, grills, hotplates and deep fryers. It does not contain caustic-based ingredients.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L

Sizzle Caustic based detergent for removing fat, grease, carbon and burnt-on food residues from ovens, grills, hotplates and deep fryers. Mid-range product, economically priced.

Perfume | None pH Level | 13.5 ± 0.5 Sizes available | 5L

Dishwashing Dispenser

We select from the latest in dispensing technology and favour simple, reliable designs to provide customers with accurate, dependable dispensing. Systems can be set up to dispense Agar's Autodish and Rinse Aid products for a seamless wash every time.

Floor Cleaning

Chloradet Super-active foaming cleaner which combines a caustic and bleaching action to rapidly remove all kinds of soil, fungi, mould and mildew from ceramic tiles, concrete, stainless steel, glass and porcelain. Excellent for kitchen floors.

Perfume | None pH Level | 12.8 ± 0.5 Sizes available | 5L, 20L

Presto As well as being a heavy-duty floor cleaner, Presto is excellent in food preparation areas, showers, barbecues or any other area where surfaces & fittings are soiled with organic fats, oil, grease, soap scum and so on.

Perfume | None pH Level | 13.5 ± 0.5 Sizes available | 5L, 20L

React Fast-reacting, non-caustic, powerful detergent, suitable for a diverse range of degreasing and heavy-duty cleaning tasks. It is especially effective on particulate soils like smoke and road dirt and suitable for use on all washable surfaces including aluminium.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 5L, 20L

FOOD & BEVERAGE

Food & beverage production facilities

Protect the quality of your produce and ensure excellent hygiene standards for your facility with Agar's range of Food and Beverage cleaning products. Specially formulated to provide highly effective control over microbes, Agar's chemicals are fast-acting and reliable.

The range of products includes a variety of heavy duty cleaners, antimicrobials and clean-in-place (CIP) products that provide excellent cleaning power and consistent sanitation results. For further information on specific products please contact Agar or a distributor.

Sanitising

Food and beverage facilities rely on chemicals to ensure the safety of the products that they manufacture and handle. Agar's sanitising products are highly effective antimicrobials that kill a wide variety of microbes.

The range includes products with different active ingredients for sanitation to ensure preference is achieved. Some products also provide a dual cleaning and sanitation action. Chemicals are available for a range of industries including abattoirs, wholesale butchers, bakeries, fruit and veg producers and more.

Heavy Duty Cleaning

As cleaning is a major part of a food and beverage facility's daily routine, cleaning products need to be fast, effective and heavy duty to get the job done efficiently. Agar's high performance cleaners are formulated to break down fats, oil, grease and soil quickly and effectively to improve productivity and get great results fast.

Clean in Place (CIP) Products

CIP cleaning requires specialist products formulated to effectively clean and sanitise surfaces inside plant and pipework which can't be dismantled.

Agar manufactures products which effectively kill microbes and remove a variety of soil including food residues, fats, oils, proteins and mineral deposits from a range of surfaces. Specifically designed to be low-foaming, free-rinsing and safe for use on food processing surfaces, the products provide fast and effective cleaning and sanitation.

Hook Cleaning Products

Clean, sanitise and protect metal hooks, utensils and surfaces with Agar's range of hook products. Comprising of three products each formulated to complete a specific task, the range provides an effective system for ensuring plant hygiene, food safety and the longevity of equipment.

LAUNDRY PRODUCTS

Get a brilliant clean every time with Agar's range of Laundry Products. Incorporating before the wash bleaches and presoaks, machine washing products and special treatments, there is a solution to clean and brighten even the toughest of washes.

Agar's laundry detergent powders and liquids are super-concentrated with only a small dose needed per wash.

Before the Wash

Pre-Soak Powder Chlorinated pre-soak detergent powder for garments. Safe and effective bleaching action. Powerful cleaning is combined with germ destruction so items come out clean, bright and sanitised.

Perfume | None pH Level | 11 ± 0.5 Sizes available | 10KG

Safety Bleach A blended sanitising powder based on safe oxygen bleach. Phosphate-free. Excellent for pre-soaking, bleaching and sanitising of general clothing and nappies. Safe on coloured fabric.

Perfume | None pH Level | 12 ± 0.5 (1%) Sizes available | 10KG

Machine Washing

Blue Active Blue Active has a powerful cleaning and brightening action while being safe for washing all cottons, coloureds, whites, washable synthetics and blends. Working in both hot and cold water, Blue Active powder is suitable for both front-loaders and top-loaders. Contains biodegradable surfactants, enzyme stain-removers, is phosphate-free and antibacterial and leaves a lingering fresh scent.

Perfume | Fresh pH Level | 12 ± 0.5 (1%) Sizes available | 5KG, 10KG, 25KG

Flair Effective and economical powder laundry detergent. Handles the dirtiest loads with hot or cold water. Contains a carefully blended selection of ingredients to provide excellent soil and stain removal, excellent water softening, brightening and perfuming qualities. Industrial strength. Phosphate free.

Perfume | Fresh pH Level | 12 ± 0.5 (1%) Sizes available | 5KG, 15KG, 25KG

Taurus Concentrated liquid machine laundry detergent. Safe on all machine washable fabrics. Effective on the heaviest of soil in hot or cold water. Contains optical brighteners to restore the brilliance of colours and a fresh fragrance. Phosphate-free.

Perfume | Floral pH Level | 9.5 ± 0.5 Sizes available | 5L, 20L

Laundry Dispenser

Use automatic dispensers to increase efficiency and reduce waste in industrial laundries.

The system can be set up to dispense up to five products.

Commercial Laundry Machine Washing

Laundry Break Heavy-duty alkaline detergent. Ideal for use as a breakwash to prevent protein soils from setting. It has very good emulsification and suspension properties to leave washed articles cleaner and brighter. Do not use on wool or silk.

Perfume | None pH Level | 13 ± 0.5 Sizes available | 5L, 20L

Laundry Brightener Concentrated laundry bleach based on peroxide. Provides safe bleaching for the removal of a wide range of spots and stains without affecting the fabrics or colours. It is suitable for use on cotton, polycotton, wool, silk and synthetics, both white and coloured.

Perfume | None pH Level | 3 ± 0.5 Sizes available | 5L

Laundry Detergent Surfactant rich liquid detergent. Used as the main detergent component in the wash cycle. It is suitable for cleaning heavily soiled laundry including whites, coloureds, cottons and synthetics.

Perfume | None pH Level | 10 ± 0.5 Sizes available | 5L, 20L

Laundry Sour Concentrated fabric finishing agent. It is mildly acidic to neutralise any traces of alkalinity in the fabrics. By restoring pH to the correct level, the washed articles are conditioned for the finishing process such as drying and ironing. Is suitable for use on all fabrics and both whites and coloureds.

Perfume | None pH Level | 0.3 ± 0.5 Sizes available | 5L, 20L

Sodium Hypochlorite Sodium Hypochlorite is a solution of sodium hypochlorite in water with an available chlorine content of 12.5% when packed. It offers a very effective method of killing germs and destroying stains in the wash.

Perfume | None pH Level | 11.0 ± 0.5 Sizes available | 5L, 20L

Special Treatment

Fabric Softener Added to the rinse water, Fabric Softener gives softness and body to all garments. Also stops static 'cling' in synthetics when they are dried.

Perfume | Floral pH Level | 4 ± 0.5 Sizes available | 5L

Woolwash Gentle detergent for removing soil from woollen textiles including blankets. Eucalyptus oil-based.

Perfume | Eucalyptus pH Level | 7 ± 0.5 Sizes available | 5L

GREEN CLEANING RANGE

Boost your business's appeal and get the products that are at the forefront of green standards with Agar's range of Green Cleaning products. The high performance range ensures the same great results you expect from Agar's traditional cleaning products plus the added benefits of green credentials. With seven products in the range licensed with Good Environmental Choice Australia (GECA), the 'gold class' of Australian ecolabelling programs, you can trust that you are getting truly green products, formulated to the highest standard available in the country.

Environmentally Preferable Range

- All Purpose & Floor Cleaners** | pH-7 & Spruce
- Carpet Spot Cleaner** | Citrus Extra & Spot Wiz
- Glass Cleaner** | Bellevue
- Heavy Duty Detergent** | Enyclean
- Spray & Wipe Cleaners** | Citra-Mist
- Toilet & Bathroom Cleaners** | Fresco, Sequal & Shower Star

The benefits of green with Agar

- Get the best results with green products that are just as effective as traditional cleaners
- Feel confident that you are purchasing truly environmentally preferable products
- Minimise pollution with process and waste control, reusable and recyclable packaging and increased product concentration for higher performance and reduced transportation
- Use products certified by the highest green standards for commercial cleaning products in Australia
- Get great value for money with high performance concentrates
- Use safer alternatives for the environment and your staff with products that minimise toxicity at all levels
- Make your business stand out from its competitors with GECA certified products

GECA Certified Products

Selected products in Agar's Green Cleaning Range have been independently certified through Good Environmental Choice Australia (GECA), Australia's most stringent and highly regarded ecolabelling program.

Using products certified by GECA provides confidence for clients requesting the highest standard of environmentally preferable solutions.

GECA is an independent, not for profit organisation and is internationally recognised as the only program in Australia that is a member of the Global Ecolabelling Network.

It has no ties to the cleaning industry and funnels all its proceeds back into producing further ecolabelling programs.

Its standards for commercial cleaning products are more rigorous than any other Australian ecolabelling program and are extremely difficult to achieve. GECA not only takes into account product factors, such as the ingredients used, but also the health effects of using each product and the social impacts of manufacturing it.
