Ninja Squeegee Handle

Three position channel locking.

- **Position One:** Channel is locked.
- **Position Two:** Flip the lock-tab over and the lock is open but the channel cannot fall out or be moved.
- **Position Three:** Push the lock-tab to fully open and the channel can be moved or changed. 180° swivel for pole work can be tightened to hold any angle.

Fits the ErgoTec Locking Cone for safety.

CODE	NAME / COLOUR	SIZE	QTY

Golden Clip Brass Squeegee Handle

Professional quality solid brass is crafted to exacting specifications. Attaches to all Unger poles. Use with Unger Brass Golden Clip channel.

CODE	NAME / COLOUR	SIZE	QTY
UNGS000	Golden Clip Handle	–	1

ErgoTec Squeegee Handle

First handle designed to fit the human hand. The Quick Spring Release allows quick and easy channel and rubber change or repositioning. The grip has moulded non-slip rubber and polypropylene components for great comfort and superb control, whatever your grip style. Use with notched stainless steel S-channels.

Fits the ErgoTec locking cone for safety.

CODE	NAME / COLOUR	SIZE	QTY
UNETG00	ErgoTec Handle	–	1

Pro Stainless Steel Squeegee Handle

Made of stainless steel, the Pro is lighter and stronger than brass. Features a Fast-Lock handle for quick blade and channel changes. Non-slip moulded rubber grip handle fits comfortably in the hand. Use with stainless steel S-channel.

CODE	NAME / COLOUR	SIZE	QTY
UNPR000	Pro Stainless Steel Handle	–	1

ErgoTec XL Squeegee Handle

Specially designed for large hands, the XL is identical to the regular ErgoTec Squeegee handle except that it is 24mm longer, reducing the discomfort of a short handle in a large hand. Use with notched stainless steel S-channels.

Fits the ErgoTec locking cone for safety.

CODE	NAME / COLOUR	SIZE	QTY
UNETX00	ErgoTec XL Squeegee Handle	–	1

Soft Replacement Rubber

Replacement rubber for window squeegees is made with a new process. Our natural molded rubber provides a sharp, long-lasting edge. Each blade is hand inspected to ensure highest quality.

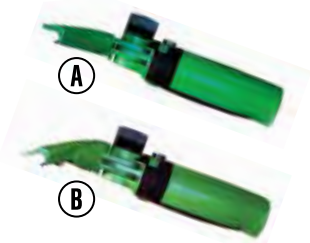
ErgoTec Swivel Loc Squeegee Handle

This patented tool swivels and locks in any position. The ergonomic handle fits perfectly into the hand with the rubber insert preventing slip. Use with brass or stainless steel channels, sold separately. Option of 0° or 30° head.

CODE	NAME / COLOUR	SIZE	QTY
UNLS000	0° Straight Head	–	1
UNLA000	30° Angled Head	–	1



Fits the ErgoTec locking cone for safety.

A. 0° Straight Head cleans low windows right to the bottom moulding and allows you to squeegee at a distance from the glass. Compatible with brass and 'S' channel.

B. 30° Angled Head cleans arched and narrow windows. Work three times faster by cleaning windows on either side of a gondola or above ledges. Compatible with 'S' channel only.

Visa Versa

Work up to 20% faster with strip washer and squeegee in one. Features patented water wells for high water retention. Quick spring release for easy blade change. Accepts both stainless steel and brass channels. Excellent for pole work. Saves constant tool changeover. Sizes: 35cm and 45cm.

Fits the ErgoTec locking cone for safety.

Unger RubOut

Professional Stain Remover

Professional glass cleaner for removing hard-water stains, rust, mineral deposits, lime scale and soap scum.

- Scrubs stains without harming the surface.
- Super strength with a pleasant fragrance.
- Easily applied with a microfibre cloth or paper towel. No special tools needed.

CODE	NAME / COLOUR	SIZE	QTY
UNRUB20	Unger RubOut	500ml	1

Nifty Nabber

Innovative, multi-purpose tool. Our improved tool is excellent for picking up bottles and debris as well as cleaning urinals and retrieving items out-of-reach. It is the ideal extension to your arm. The Nifty Nabber is made of aluminium and features rubber, overmoulded steel fingers. Powerful claws grip small and odd-shaped objects.

Short handle: 45cm long for use where reach over distance is not important but manual handling is unacceptable e.g. lifting urinal screens out of stall urinals or lifting syringes out of public transport seats.

Long Handle: Choice of two sizes 90cm and 140cm long. For use where distance handling is important. Allows, particularly, collection of items such as bottles, cans, syringes and other debris from ground level. Also useful to reach up to high shelves. Avoids OH&S issues.

Extra Long Handle: Unique 240cm long for use at very long distances e.g. debris in a pond, collecting debris off railway tracks from station platform.

CODE	NAME / COLOUR	SIZE	QTY
UNNN400	Nifty Nabber – Short	450mm	1
UNNN900	Nifty Nabber – Long	900mm	1

Peoples' Paper Picker Pin

Ideal for picking up paper debris and cans. Made of lightweight steel. 100cm length. Replacement pin plugs are available.

CODE	NAME / COLOUR	SIZE	QTY
UNPPP0	Peoples' Paper Picker Pin	1067mm	1
UNPINP0	PPPP Replacement Pins	–	1

Trigger Nabber

- Focussed on ergonomics – very comfortable trigger grip. Ideal for use over long periods.
- Light to hold with lightweight, durable aluminium shaft. Reduces fatigue.
- Head can swivel 360°. Allows use in hard-to-reach areas and with difficult items.
- Magnetic tip embedded in the head. Easy pick up of the finest metal objects such as steel needles, paperclips, pins.

CODE	NAME / COLOUR	SIZE	QTY
UNNT090	Trigger Nabber	900mm	1

Nifty Nabber Bagger

The perfect waste carrier, especially for outdoor use. With a solid plastic bottom and two carry loops it can be easily pulled across uneven or even surfaces. Can take 180 litre garbage bag or used as is. Collecting into an unsupported garbage bag results in torn/broken bags. Place the bag inside the Bagger for protection. And no more carrying full, heavy bags or, worse, bins. Collapses for storage. Perfect complement to Nifty Nabber grabbing tools.

+ 1 x HYBRID EXTENSION POLE (UNHT35G)

7m / 23'

HYBRID MASTER POLE (UNHT67G)

UNGER

Quality Tools for Smart Cleaning

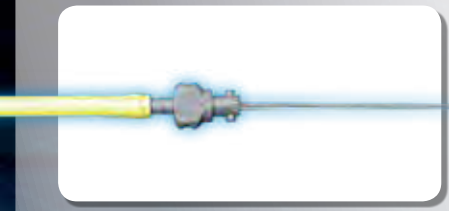
nLITE HiFlo™

THE ACCESSORIES

CLAMPS: The clamps, which prevent poles from sliding or allow pole sections to slide in and out and also hold Extension Poles attached to Master Poles, are simple to operate. No tools are required. The design ensures there is no risk of damaging or crushing the tube. Built in flanges alongside the clamp handle protects inadvertent opening of the clamp. Each clamp has an eyelet attached to thread the hose through and keep the hose from tangling or catching. A green Unger logo-shaped screw can be hand-turned to adjust clamp tension.

GOOSENECKS: Carbon-fibre goosenecks attach to the pole and are held in place by clamping. They allow the adjustment of the working angle of the brush. Several goosenecks can be combined to achieve a desired angle. Available in 20cm and 30cm lengths.

BRUSHES: Choice of Rectangular, Radius or Yellow Solar in three sizes, 27cm, 40cm, and 60cm for large areas. All brushes have jets for water supply. Two jets for water supply are supplied with each brush but depending on brush size up to ten jets can be used. Jets are available in pencil or for spray pattern. The number of jets used allows the cleaning of larger areas quicker and better but depends on water pressure.



HOSE: Available in 11m, 20m, and 25m lengths and complete with standard hose connector there is a choice of attaching the hose to the pole externally or internally. For external attachment, thread through the eyelets on each clamp. For internal attachment the hose is threaded through the groove in the end cap, up the inside of the poles until it emerges from the side aperture of the thread adapter or the top of the pole. Both methods prevent snagging or damage to the hose.

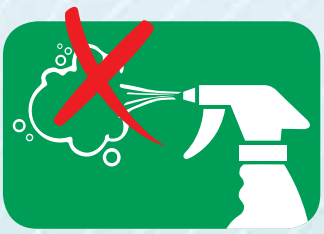
STINGRAY

MICROFIBRE TRIPAD

- Lint free, easy glide microfibre eliminates dust, fingerprints, grease and other light dirt.
- Elastic straps in each corner secure the pad in place.

3D DESIGN

- 25mm deep microfibre edge for simultaneous cleaning of windows and frames.



ENCLOSED SPRAYING

- Pad design incorporates protective cut-out area for precise liquid application directly to surfaces.
- Prevents spray inhalation.

REFILL POUCH

- Contains 150ml of high quality professional glass cleaner.
  - Ready-to-use formula effectively removes dirt, grease and fingerprints.
  - Fast drying, leaves no streaks or marks.
  - U.S. patent pending.

PRECISION SPRAY SYSTEM

- Dispenses optimal amount of cleaning liquid with every spray.
- Allows control of costs and reduction of waste.

3D JOINT

- Robust and fully flexible for easy access to hard to reach areas.

CONTROLLED-VOLUME PUMP

- Allows for precise dosing at any time and fatigue-free work without additional effort.
- Virtually silent.
- Powered by 2 x AA batteries.

SPRAY ACTIVATION BUTTON

- Battery powered pump allows you to effortlessly apply a single amount of cleaning liquid at a push of a button, regardless of the handle length.

AGILE LIKE A RAY

The **UNGER Stingray** lives up to its namesake. Clean hard to reach areas and places with tremendous agility and surprising ease.
