Guide to Floor Care

Floor Care Leadership You Can Count On

‘Leading the industry in comprehensive floor care solutions for more than a hundred years.’

Diversey differentiates itself by being a solution provider, not a product provider. We design innovative solutions that exceed performance expectations and help our customers meet their floor care goals through years of floor care knowledge and leadership.

By combining innovative chemicals, application tools, machines and unparalleled support, Diversey solutions deliver more sustainable, reliable and better quality results at the lowest total cost of ownership.

Floor care is not just the application of a floor finish but the installation of a system.

A floor care system is a combination of the products, equipment, procedures and labour to protect and maintain the floor appearance.

The system chosen will depend on a number of factors including:

- Floor type
- Traffic load
- Gloss level required
- Equipment available
- Labour budget / maintenance hours available
- Product Selection

COATED FLOORS

- Chemicals

Best Practice - Coated Floors

There are three (3) steps in a coated floor care program – floor prepare, protect and maintain. Floor care begins with a clean floor, ready to take the application of a new temporary coating. This clean floor can be achieved either through stripping or through a recoat program.

Step 1 PREPARE

Stripping is carried out when the appearance of the floor can no longer be restored using daily or periodic maintenance. All Diversey floor strippers have been developed to give an effective and fast result, removing all types of floor coatings. Our range includes traditional alkaline strippers and heavy duty strippers specifically formulated to remove multiple coats from burnished floors.

Chemical free stripping can also be achieved with a Twister X-treme pad.

Twister Pad Recommendation

Twister Extreme - Stripping

Chemical Free Stripping. Deep clean with water and Twister Xtreme until floor finish is removed, approx. 1-2 passes per layer of floor finish.

Stain and Etch repair. Deep clean with water and Twister Xtreme until stains and etches are removed.

Step 2 PROTECT

Protecting the floor requires applying a sacrificial coating on the floor to extend the life of the floor. Diversey sealers and finishes are formulated with the highest quality polymers for:

- Superior wet look gloss
- Suitability to local conditions
- Diamond-like brilliance and clarity
- Compliance with Australian and New Zealand Slip Resistance Standards (AS/NZS4586) for a safe result
- High scuff and scratch
- Excellent durability
- Ease of application and maintenance resistance

Step 3 MAINTAIN

Daily cleaning removes soils from the surface of the coating and help stop discolouration. The selection of the correct cleaning product together with the right equipment is essential to the long term care of the coating. A choice of neutral and heavy duty cleaners are available to suit all situations from daily to periodic cleaning, whether applied manually or by machine.

Our range also includes maintenance cleaners with wax emulsion and surfactant cleaners that not only clean but also repair the floor finish and restore the shine in one step.

Twister Pad Recommendations

Twister Green - Daily Cleaning

Daily cleaning of all coated (polished) floors and low traffic non-resilient floors. Use water and Twister Green for daily cleaning to maintain high gloss and cleanliness

Twister Grey(Supergloss 10,000) - Burnishing

Daily burnishing of coated floors. For a brilliant gloss after cleaning burnish coated floors with Twister Gray (<3500rpm).

Coated Floors

Recommended Floor Maintenance Program

Diversey recommends the following floor care programs dependant on floor traffic. Use this recommendation in conjunction with our Floorcare Selection Guide on page 8.

Action	High Traffic	Moderate Traffic	Low Traffic
Strip & Seal frequency	12 months	12 – 18 months	18 – 24 months
No. of coats recommended	2 coats sealer + 4-6 top coats or 6-8 top coats Maximum: 4 coats in 8 hour shift Follow up top up coats within 5 days	2 sealer + 3 top coats or 5 top coats Maximum: 4 coats in 8 hour shift Follow up top up coats within 8 days	2 sealer + 2 top coats or 4 top coats Maximum: 4 coats in 8 hour shift Follow up top up coats within 10 days
Drying time between coat (temperature, humidity & ventilation may affect drying time)	Allow 30 – 45 mins from touch dry	Allow 30 – 45 mins from touch dry	Allow 30 – 45 mins from touch dry
Cleaning	Daily	Daily or as required	As required
Cut Back & Recoat	Minimum 2 top coats on a quarterly or monthly rotation	Minimum 2 top coats every 6 months (as required)	Minimum 2 top coats every 6 months (as required)
Buffing/ burnishing machine speed	Minimum 3000 rpm	1500 – 3000 rpm	Minimum 175-1500 rpm

Daily Maintenance

Daily floor cleaner for mopping and mechanical scrubber

Use any of the following daily cleaning products : Taski View Quick, Taski Stride, Taski Asset JF, Taski Jontec Asset. (See page 8 for more product information).
Clean with a Twister Green Pad.

Weekly Floor Maintenance

High Traffic areas

1. Three times a week add Taski Revive floor maintainer to water in scrubber tank as per product label. Clean with a Twister Green Pad.
2. All other days add daily neutral floor cleaner.
3. 3 times per week (minimum) burnish floors using Twister Grey (Super Gloss 10,000) with an ultra high speed burnisher.

Moderate traffic

1. Twice a week add Taski Revive floor maintainer to water in scrubber tank as per product label. Clean with a Twister Green Pad.
2. All other days add daily neutral floor cleaner.
3. 1- 2 times per week (minimum) burnish floors using Twister Grey (Super Gloss 10,000) with an ultra high speed burnisher.

Low traffic

1. Once a week add Taski Revive floor maintainer to water in scrubber tank as per product label. Clean with a Twister Green Pad.
2. All other days add daily neutral floor cleaner.
3. 1- 2 times per week/fortnight (minimum) burnish floors using Twister Grey (Super Gloss 10,000) with an ultra high speed burnisher.
4. For maintaining small to medium floor areas use Snapback to spray and polish areas that are normally mopped (where auto scrubber is not used) and polish floor with a single disc machine eg. Ergodisc 400.

Quarterly Maintenance

Cut back and Recoats floors for Moderate and High traffic areas

1. **Chemical Cutback:** Use Taski Reveal for deep floor cleaning as per recommended product label.
or
Chemical Free Cutback: Remove the top layer of floor polish using water and Twister Orange.
2. Clean and cut back top coat polish and apply 2 coats of fresh polish in all areas.
3. Large floor areas recommended to have monthly rotational floor cut back and recoating program.

Coated Floors Selection Guide

Our product range caters to your floor care program and budget

*Rubber floors are sensitive to alkaline products. Proceed with caution. Check with the floor manufacturer for recommendations on how to maintain and look for products that indicate the product is safe for rubber floors. ** Non-resilient surfaces and Linoleum floors must be sealed first before applying finish.

Strippers

TASKI® Pro Strip™ HD	Pack size	Code
High performance stripper for the removal of tough sealer finishes. Formulated for rapid bite in and deep penetration of multiple layers of sealer/finishes found in UHS floorcare programs including vinyl composite tile, terrazzo and concrete floors.	2x5L	5751137

TASKI® Step Off™	Pack size	Code
Non-ammoniated alkaline stripper for removing metalised floor sealers and finishes from hard and resilient floors. Effective for removing top coats in a selective stripping program to provide a fast start when coating up.	2x5L	5784596

TASKI® Strip Eze™	Pack size	Code
Deep penetrating non-ammoniated stripper for resilient and non-resilient floors. Economical stripper for all general purpose stripping.	2x5L	5487081

TASKI® Strip Plus™	Pack size	Code
Non-ammoniated booster stripper designed to enhance the performance of water based strippers. Formulated to improve the removal of old coatings through rapid bite in and deep penetration of multiple layers of sealer/finishes.	2x5L	HH15303

Floor Sealers

TASKI® Plaza™ Plus	Pack size	Code
Floor sealer, suitable for highly alkaline surfaces making it suitable for most terrazzo floors and porous concrete floors. Top coat with a Diversey finish to provide a superior depth of gloss.	2x5L	5623653

TASKI® Jontec™ Technique	Pack size	Code
A stain resistant floor sealer for use on all internal resilient floors such as vinyl and porous composite tiles. Technique is a semi permanent sealer that enhances the appearance of old floors when used with a Diversey finish according to directions.	2x5L	7513198

‘Leading the industry in comprehensive floor care solutions for more than a hundred years.’

Finishes

TASKI® Millentra™	Pack size	Code
Economical floor finish for use on all internal resilient floors such as vinyl and porous composite tiles. Resists scuffing, dirt and marking to extend the recoat cycle. Designed for low speed applications.	2x5L	5687497

TASKI® Pinnacle™	Pack size	Code
Heavy duty premium performance UHS floor finish that provides exceptional “wet look” gloss, low marking and ease of maintenance. Easy to apply and maintain.	2x5L	5519645

TASKI® Premia™	Pack size	Code
Low maintenance, durable ultra high speed finish that delivers a wet look gloss without daily burnishing. Resists black heel marks and scuffs. High buff response so floors retain gloss for longer between recoats.	2x5L	5594645

TASKI® Showplace™	Pack size	Code
A high solid floor finish for use on all prestige internal resilient floors such as vinyl, rubber and porous composite tiles. Builds gloss quickly and has outstanding buff response to retain the shine.	2x5L	5687593

TASKI® Vectra™	Pack size	Code
High performance fast curing floor finish for use on all internal resilient floors such as vinyl and porous composite tiles. Vectra delivers diamond like brilliance and clarity across a wide variety of surfaces. Designed for low speed applications.	2x5L	5687631

Maintainers

TASKI® Jontec™ Tensol™ ID F3d	Pack size	Code
Highly concentrated floor cleaner/maintainer, without film build up. Ideal for cleaning and maintenance of protected and unprotected water resistant hard floors. Creates a slip-resistant and dirt repellent floor. To be used in TASKI scrubber driers equipped with TASKI IntelliDose on-board chemical dilution system.	2x1.5L	7515723

TASKI® Revive™	Pack size	Code
High performance cleaner / maintainer that enhances the appearance of UHS floor finishes. Produces a brilliant gloss whilst removing scuffs, scratches and dirt.	2x5L	5687542

TASKI® Snapback™	Pack size	Code
Spray buff that enhances the appearance floor finishes with low-medium speed maintenance programs. Produces a brilliant gloss whilst removing scuffs, scratches and dirt. Cleans and shines, saving time and money by doing two jobs in one.	2x5L	5687606

Hard Floors

Daily & Periodic Cleaners

Product Range

Floor Cleaners – Daily

TASKI® Asset J-Fill™	Pack size	Code
Neutral cleaner for the daily cleaning of floors, washrooms and other hard washable surfaces. Super-concentrated, Pleasant rose fragrance. For use with J-Fill dispensing units.	2x2.5L Ctn 12 750ml Bottle Kit	4511895 D6007457

TASKI® View Quick™	Pack size	Code
Concentrated, no-rinse daily cleaner with a pleasant rose fragrance for lightly soiled, sealed and unsealed floors. Film-free drying that leaves no dulling residue on surface. Ideal for hospitals, school and retail establishments.	2x5L	5687649

TASKI® Stride™ HC Citrus J-Fill™	Pack size	Code
Neutral cleaner with a citrus fragrance specially formulated for the daily cleaning of floors, washrooms and other washable surfaces. Super-concentrated, for use with J-Fill dispensing units. Green Seal certified.	2x2.5L Ctn 6 750ml Bottle Kit	904716 D1228005

TASKI® Stride™ Citrus J-Flex™	Pack size	Code
Neutral cleaner with a citrus fragrance specially formulated for the daily cleaning of floors, washrooms and other washable surfaces. Super-concentrated, attach J-Flex to a hose to dispense ready to use solution. Green Seal certified.	1x5L Ctn 6 750ml Bottle Kit	4029089 D1228005

TASKI® Jontec™ 300 ID F4c	Pack size	Code
Highly concentrated, low foaming neutral cleaner for all water-resistant hard floors. The perfume also incorporates an odour neutralising technology for effective malodour neutralisation and provides a long lasting, fresh fragrance. To be used in TASKI scrubber driers equipped with TASKI IntelliDose onboard chemical dilution system.	2x1.5L	7515721

‘By combining innovative chemicals, application tools, machines and unparalleled support, Diversey solutions deliver more sustainable, reliable and better quality results at the lowest total cost of ownership.’

Hard Floors

Daily & Periodic Cleaners

Product Range

Floor Cleaners – Heavy Duty

TASKI® Diverfloor™	Pack size	Code
Heavy duty, medium to high alkaline floor cleaner containing efficient surface active agents and solvents to penetrate the toughest soils. It is suitable for removing soils from surfaces such as ceramics, concrete, painted surfaces, vinyl, steel and most plastics.	2x5L	5687420

TASKI® Jontec™ Best	Pack size	Code
Heavy-duty, low foaming floor cleaner for removing mineral/synthetic oil and grease, rubber and water-soluble soil from water resistant, hard floors.	2x5L	7512309

TASKI® Jontec™ Forward® ID	Pack size	Code
Highly concentrated, low foaming heavy duty alkaline floor cleaner. Removes heavy soil, dirt and grease from all water resistant, nonprotected hard floors (except unsealed wood). To be used in TASKI scrubber driers equipped with TASKI IntelliDose on-board chemical dilution system.	2x1.5L	7515722

TASKI® Peneclean™	Pack size	Code
Heavy duty, high-detergency cleaner for sealed and unsealed floors. Penetrating cleaner that emulsifies and dispenses dirt, soil and grime.	2x5L	5687500

TASKI® Reveal™	Pack size	Code
Heavy duty cleaner designed to remove most types of dirt and soils and is suitable for deep scrubbing of UHS floor finishes. Also suitable for other hard surfaces such as walls, tables and modern washable surfaces. Ammoniated formula leaves no dulling residues.	2x5L	5687526

TASKI® Reveal™ J-Fill™	Pack size	Code
Heavy duty cleaner designed to remove most types of dirt and soils and is suitable for deep scrubbing of UHS floor finishes. Also suitable for other hard surfaces such as walls, tables and modern washable surfaces. Ammoniated formula leaves no dulling residues. Super-concentrated, for use with J-Fill dispensing units.	2x5L	HH15297

TASKI® Clearclean Plus™	Pack size	Code
Highly reactive, low-foaming industrial degreaser for all heavy duty degreasing. Contains alkaline and solvent to remove grease, oily soils, carbon black and rubber burns from floors, equipment, machinery and vehicles.	2x5L	5487073

HARD FLOORS

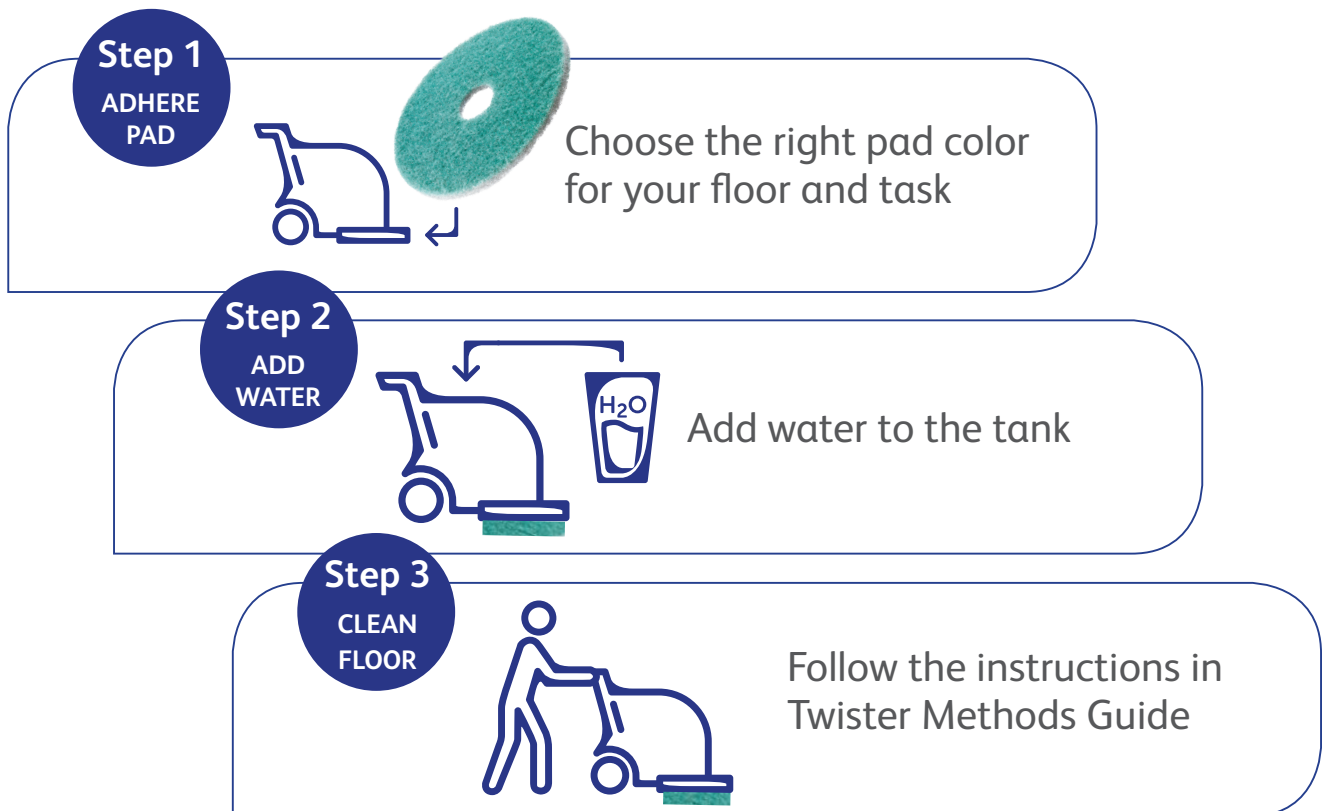

- Pads and Machines

Hard Floors Twister Pads

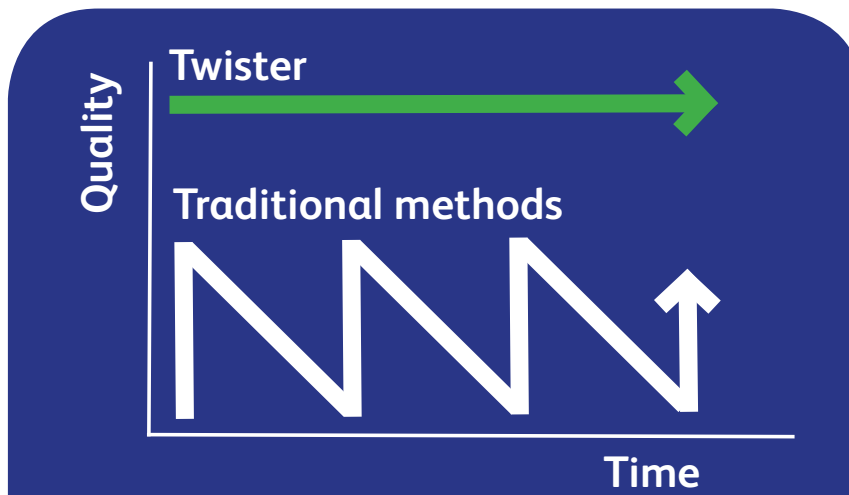

Twister diamond pads and water is all you need to produce clean and shiny floors you will save both money and the environment. Thanks to the results Twister produces, not only will the life span of the floors increase, but using Twister will also reduce your need for consumables. This diminishes your transportation and waste management costs related to standard daily floor cleaning pads and chemicals.

Best Practice - 3 Step Process

Using Twister every day provides a high and even floor quality 365 days per year.

Pad choice

It is essential that the correct pads or brushes are used for each specific task.

Brushes perform better than pads on uneven floors because they penetrate into the undulations where a pad would not reach, making them particularly effective on safety flooring.

Twister Pad Selection Guide

Chemical free daily cleaning

Maintains gloss and cleanliness of floors in moderate and high traffic areas

Moderate Traffic Areas - all floors - Twister Green 
 Use water and Twister Green for daily cleaning in moderate traffic areas to maintain high gloss and cleanliness. (Lifespan up to 30,000m²)

High Traffic Areas - uncoated floors - Twister Pink 
 Use water and Twister Pink for daily cleaning in high traffic areas to maintain brilliance and cleanliness. (Lifespan up to 45,000m²)

High Traffic Areas - uncoated floors - Twister Blue 
 Use water and Twister Blue for daily cleaning in high traffic areas to maintain high gloss and cleanliness. (Lifespan up to 45,000m²)

High Traffic Areas - homogenous ceramic tiles - Twister Orange 
 Use water and Twister Orange for daily cleaning of ceramic tiles to maintain gloss and cleanliness. (Lifespan up to 45,000m²)

All coated floors - Twister Green 
 Use water and Twister Green for daily cleaning to maintain high gloss and cleanliness. (Lifespan up to 35,000m²)

Renovation of coated floors in moderate and high traffic areas

Step 1 – Twister White 
 Clean the floor with water and Twister White. Make 6-10 passes.

Step 2 – Twister Yellow 
 Clean the floor with water and Twister Yellow. Make 6-10 passes.

Step 3 – Twister Green 
 Clean the floor with water and Twister Green. Make 6-10 passes.

Step 4 (Optional) – Twister Green 
 High speed polish the floor with Twister Green (<3000 RPM).

Method Guide - Twister Pads

Renovation of non-resilient uncoated floors in high traffic areas

Step 1 – Twister Orange 
Clean the floor with water and Twister Orange. Make 6-10 passes.

Step 2 – Twister Blue   
Clean the floor with water and Twister Blue. Make 6-10 passes.

Step 3 (Optional) – Twister Pink    
Clean the floor with water and Twister Pink. Make 6-10 passes.

Step 4 (Optional) – Twister Pink    
High speed polish the floor with Twister Pink (<3000 RPM).

Renovation of resilient uncoated floors in moderate to high traffic areas

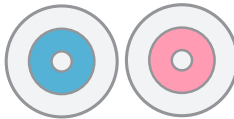

Step 1 – Twister White 
Clean the floor with water and Twister White. Make 6-10 passes.

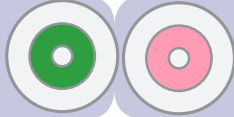

Step 2 – Twister Yellow  
Clean the floor with water and Twister Yellow. Make 6-10 passes.

Step 3 – Twister Green   
Clean the floor with water and Twister Green. Make 6-10 passes.

Step 4 – Twister Blue    **or Pink**   
Clean the floor with water and Twister Blue or Pink. Make 6-10 passes.

Step 5 (Optional) – Twister Green     **or Pink**    
High speed polish the floor with Twister Green or Pink (<3000 RPM).

Surface preparation

Preparation of the floor surface for either renovation or for the application of floor finish

Chemical free deep cleaning
Deep clean to remove the top layer of the floor finish using water and Twister Orange.

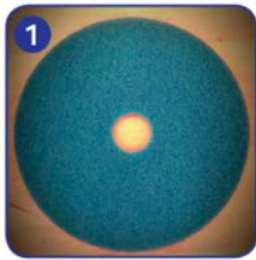

Chemical free stripping
Deep clean with water and Twister Extreme Red until the floor finish is removed.
Approx. 1-2 passes per each layer of floor finish.

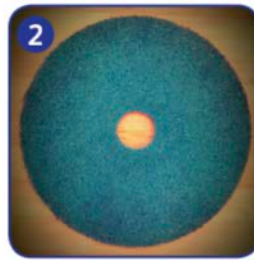

Stain and etch repair
Deep clean with water and Twister Extreme Red until stains and etches are removed.

Hard Floors Twister Pads

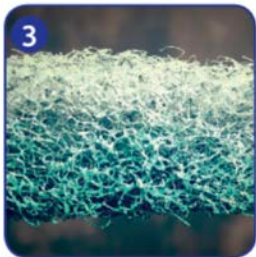

Lifespan Guide

1 New Pad

2 Slightly worn pad but still contains diamonds. Still OK to use.

3 Pad is really faded but still contains diamonds. Still OK to use.

4 Time to dispose of pad (no diamonds or colour visible)

Twister™ - diamond pads for auto-scrubbers and burnishing machines.

Hard Floors Machines

How to choose which machine to buy?

There are a number of criteria involved in the decision regarding which machine to buy:

- What will the machine be used for
- The initial cost of buying the machine
- The economy in terms of the cost in use of the machine
- The degree of operator training required to use the machine
- The availability of the machine, parts and back-up service

Why use machines?

1. By using the correct machine it is possible to reduce the time required to maintain a floor and therefore reduce the labour cost
2. The final results are improved through machine use
3. When used correctly, machines ensure the most efficient consumption of chemicals

TASKI

10 reasons TASKI® auto scrubbers stand out

1. Water Recovery

Auto Scrubbers use an innovatively designed squeegee to pick up every drop of water at any speed. This design means it can be pick up water on all four sides, and it lasts four times longer than gum rubber

2. Maintenance Points

These coloured maintenance points make it easy for workers to conduct regular maintenance and inspection on machines

3. Ergonomics

Ergonomically designed to make them easy and comfortable to use, which improves worker efficiency

4. Maneuverability and Agility

Auto Scrubbers use patented all-wheel steering that enables them to maneuver into areas that would normally require a much smaller machine

5. Recovery Tank Cleaning

The open design of the recovery tank allows for easy access and cleaning

6. Automatic Mounting for Brushes and Pads

There's no need to bend over to attach brushes or pads, which improves productivity and reduces worker strain

7. Recycles Solution up to Four Times

Ride-on Auto Scrubbers can recycle solution up to four times – reducing chemical waste and increasing productivity

8. Straight to the Tank Vacuum Hose

Solution recovery is improved with a hose that goes straight to the recovery tank, without any bends and turns that cause it to lose suction

9. IntelliDose Onboard Chemical Dispensing

Choose from three chemical dilution levels, and the ability to do water-only cleaning without having to return to a chemical mixing station

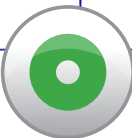

10. IntelliFlow Controlled Solution Dosing

Only TASKI Auto Scrubbers directly link the cleaning solution flow to the machine's wheel speed. This removes the need for the operator to manage the flow and maximizes the machine's productivity

Single Disc Machines

TASKI® ergodisc 165

Low-speed (165 rpm) single-disc machine that is versatile and is adaptable to a variety of cleaning tasks. The ergodisc 165 is especially suited for: wet scrubbing, stripping, buffing, spray cleaning, wet & dry shampooing, wood treatment and crystallisation.

1 x 43cm
Refer to Page 18-19 to choose the right pad for your floor

	4 x Standard scrubbing brush 28 cm

Dilution Control System

TASKI® IntelliDose

A dosing unit for TASKI swingo machines which works in conjunction with IntelliFlow to deliver superior results in chemical dosing. This system calculates and delivers the optimal amount of chemical for any task or floor type, ensuring superior cleaning while controlling and reducing chemical consumption. For use with Jontec floor cleaning range, see page 31.

IntelliDose Systems

CARPET CARE

- Chemicals and Machines

Carpet Care

Chemical Product Range

Daily cleaning

Dust and soil removal:
For best results vacuum daily

Stain removal:
Stains on carpets always need special attention. Our General Purpose spotter removes stains from carpet.

General Purpose Spotter

- Powerful cleaner, lifts out tough spots and stains, even the most stubborn stains

Intermediate cleaning

Revitalising the carpet:
Intermediate cleaning revitalises the carpets and extend the cleaning cycle between deep cleaning. The dry foam shampoo method allows the area to be opened to traffic within a short time. The product is also adapted for encapsulation cleaning, traditional wet shampooing and carpet pad methods.

TASKI Tapi Shampoo

- Carpet shampoo adapted for any method (wet and dry shampooing as well as bonnet method)
- Leaves a fresh fragrance due to the "ONT" technology
- Safe to use for all carpet cleaning methods including encapsulation

Deep cleaning

Extraction cleaning:
Restorative or extraction cleaning is the most thorough and effective method for removing soil from carpets. It involves deep cleaning down into the carpets pile. Extraction cleaning is carried out periodically due to longer drying times that require areas to be closed for traffic.

TASKI Tapi Extract

- Loosens incrustated dirt without damaging the fibres
- Leaves a fresh fragrance due to the "ONT" technology
- Low foaming formulation for use with any extraction cleaning machine or spray device

A complete range of carpet solutions

Our carpet solutions tackle spots, stains and enable you to achieve a deep clean creating a lasting first impression. From high-performance shampoos to high-pressure extractors, our carpet cleaning systems puts any carpet on the road to clean.

Carpet Care Selection Guide

Product	Description	Wool	Synthetic
TASKI® Tapi Extract*	Extraction cleaner, carpets and upholstery	x	x
TASKI® Tapi Shampoo*	Shampoo for intermediate cleaning of carpet and upholstery	x	x
General Purpose Spotter	Stain remover	x	x
TASKI® Tapi Gum	Removes chewing gum on carpets and upholstery.	x	x
TASKI® Jontec Best**	Heavy duty cleaner		x

Always test material/product compatibility in a small inconspicuous place before using any cleaning/maintenance product.
TASKI® Tapi products are WoolSafe Certified
*Incorporates Odour Neutralising Technology (ONT) for effective malodour neutralisation and long lasting, fresh fragrance.
** may be used as an alternative to Taski® Tapi Shampoo for heavy soiling.

Carpet Cleaning

General Purpose Spotter	Pack size	Code
Removes tough stains, protects against resoiling and deodorises carpets.	6x946ml	904192

TASKI® Tapi Defoam	Pack size	Code
Defoamer recommended for use in spray extraction machines and wet vacuum cleaner. Prevents build up of foam in the pick up tank.	6x1L	100835157

TASKI® Tapi Extract	Pack size	Code
Carpet and upholstery cleaner for extraction cleaning of carpets and upholstery. Incorporates Odour Neutralising Technology (ONT) for effective malodour neutralisation and long lasting, fresh fragrance. WoolSafe approved.	2x5L	101100322

TASKI® Tapi Gum	Pack size	Code
Aerosol freeze spray for chewing gum removal. Removes chewing gum on carpets and upholstery.	6x500ml	100835156

TASKI® Tapi Shampoo	Pack size	Code
Carpet shampoo for the intermediate cleaning of carpet and upholstery. Incorporates the Odour Neutralising Technology (ONT) for effective malodour neutralisation and long lasting fragrance. WoolSafe approved.	2x5L	101100200

Vacuum Cleaners

TASKI® AERO 8/15 Plus

The new TASKI AERO tub vacuum cleaners are highly efficient and use a 585W state-of-the-art vacuum motor, which delivers the same cleaning performance as vacuums with 900W or more. This is achieved through an ingenious airflow system. As a result, the vacuum cleaner saves significant amounts of energy and reduces CO2 emissions without compromising on cleaning results in any way. Thanks to the innovative and patented TASKI whisper technology, the TASKI AERO is extremely quiet. This low noise level means it can be operated in any environment at any time of day or night. (Hepa Filter optional accessory, 15 Plus model includes Eco button for reduce noise level).

	1 x Accessory kit (wand/hose/floor tool)

‘Deep cleaning through spray extraction is the ultimate way of thoroughly cleaning your carpets. It increases the lifetime of your carpets by removing ingrained dirt whilst maintaining the high appearance levels of your carpet.’

Diversey

Diversey's purpose is to protect and care for people every day. Diversey has been, and always will be, a pioneer and facilitator for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors, including: cleaning products, systems and services that efficiently integrate chemicals, machines and sustainability programs. This makes us unique among leading global hygiene and cleaning companies. Everything we do has our customers' needs at its heart and is based on the belief that cleaning and hygiene are life essentials. With over 95 years of expertise, we safeguard our customers' businesses, contributing to productivity improvements, lower total operating costs and brand protection. Diversey is head-quartered in Fort Mill, SC, USA. For more information, visit
