J-Fill™ Dispensing Systems

It's the one that does it all!

Benefits of J-Fill Dispensing Systems

Easy to Use

- Push a button or squeeze a trigger and the J-Fill dispensing system will dispense accurate cleaning solutions with no measuring, mixing or mess.
- Fill buckets, scrubbers or bottles remotely or from a central location accurately & efficiently.

Reduces Work Place Hazards

- Spill-Tite™ cartridges leak proof design virtually eliminates chemical exposure.
- Package design allows product only to be dispensed by the dispensing units.

Accurate & Consistent Dilutions

- Spill-Tite™ cartridge design virtually eliminates tampering and manually diluting products.
- Metering tip in each bottle cartridge ensures precise dilution and eliminates possibility of tampering with dilution ratios.

Environmentally Sound & Cost Effective

- Super and hyper concentrates reduce packaging and solid waste disposal/recycling.
- Requires significantly less storage, handling and packaging cost per diluted litre than conventional packaging.

** Check local plumbing regulations for proper installation and back flow protection requirements*

SafeGap™ and Air Gap eductors meet ATS 5200.033:2004 standard for back flow prevention.*

Optional flo-thru unit eliminates hot & cold water cross connection.*

Patented leak proof Spill-Tite™ cartridge.

Patented in-cartridge metering for precise metering.

Filter valve unit enables easy water hookup and filters unwanted sediment.

The most advanced wall-mounted, locking dispensing system

QuattroSelect dispensing system allows you to choose from four different products with the turn of a dial. Simply select the product you desire, choose one handed low flow bottle fill or point of use bucket activation and dispense ready-to-use solutions into spray bottles, buckets and automatic scrubbers. The lockable cabinet helps eliminate unwanted cartridge removal.

Remote high flow bucket activation

High flow and low flow quick change

One handed bottle fill

Single unit dispensing station

The J-100 offers the flexibility of high-flow bucket/scrubber filling or low-flow bottle filling. Features safe chemical management, accurate dilutions and cost savings. Can be joined together to create a multi-unit dispensing system.

High flow bucket filling

Easy product change-out

Low flow bottle fill

Portable and compact unit for use with multiple products

J-Fill Hand Held Portable consistently delivers accurate dilutions anywhere you need them. Simply select the product you desire, attach the Spill-Tite™ cartridge, hook up to a water supply and press the trigger. Dispenses into bottles, buckets and automatic scrubbers. Can be used with multiple products.

Fills automatic scrubbers, buckets and bottles quickly and easily

Water supply hose quick-connects to almost any water source

Lockable dispensing head eliminates cartridge removal

J-Fill QuattroSelect™

J-Fill J-100™

J-Fill Hand Held Portfolio

Powder coated steel doors resist corrosion and are easy to clean

Keyed door lock prevents product tampering

Easy to use one handed 1.5 GPM low flow and low foam bottle fill

Durable ABS Molded Cabinet for years of service

Easy to identify product window

Smartvalve™ technology automatically chooses correct flow rate in one operation

8' 3.1 GPM high flow bucket fill hose with easy to use point of use activation

Drip tray with drain hose

J-Fill | QuattroSelect

The most advanced wall-mounted, locking dispensing system.

QuattroSelect dispensing system allows you to choose from four different products with the turn of a dial. Simply select the product you desire, choose one handed low flow bottle fill or point of use bucket activation and dispense ready-to-use solutions into spray bottles, buckets and automatic scrubbers. The lockable cabinet helps eliminate unwanted cartridge removal.

Remote high flow bucket activation.

High flow and low flow quick change eductor system.
